

Material Safety Data Sheet

L-ASCORBATE-2-MONOPHOSPHATE MSDS

Section 1-----Chemical Product and Company Identification

Product name	L-Ascorbate-2-Monophosphate
Company information	Manufacturer: CSPC Weisheng Pharmaceutical (Shijiazhuang) Co., Ltd. Address: No.898 Zhongshan East Road , Shijiazhuang, China. Tel: +86 311 85381163 Fax: +86 311 85388574

Section 2-----Composition/Information on Ingredients

Characterization	It contains primarily monophosphate ester of L-ascorbic acid. In addition, it contains very small quantities of diphosphate ester as well as traces of triphosphate ester of L-ascorbic acid.
Chemical name	Sodium-, Calcium-ascorbyl-2-monophosphate
Synonyms	Ascorbic acid phosphate

Section 3-----Hazards Identification

Most important hazards No particular hazards known.

Section 4-----First-aid Measures

Eye contact	Rinse immediately with tap water for 10 minutes, open eyelids forcibly.
Skin contact	Remove immediately contaminated clothes, wash affected skin with water and soap. Don't use any solvents.
Inhalation	Remove the casually to fresh air and keep him/her calm Consult physician.
Note to physical	Treat symptomatically.

Section 5-----Fire-fighting Measures

Material Safety Data Sheet

Note	As with all fires, evacuate personnel to safe area.
Suitable extinguishing media	Water spray jet, dry powder, foam, carbon dioxide
Protection of fire-fighters	Precipitate gases/vapors/mists with water spray

Section 6----Accidental Release Measures

Methods for cleaning up	Collect solids (avoid dust formation) and hand over to waste removal
-------------------------	--

Section 7----Handling and Storage

Handling

Technical measures	Processing in closed systems, if possible superposed by inert gas (e.g. nitrogen) Local exhaust ventilation necessary. Take precautionary measures against electrostatic charging.
--------------------	--

Storage

Storage conditions	Store in a dry place Keep container tightly closed
Validity	24 months, in the unopened original container, after opening the container, the contents should be used within a short period, see expiry date on the label.

Section 8----Exposure Controls/Personal Protection

Monitoring

Analytic	Sampling on glass fiber filter and gravimetric or chemical determination
----------	--

Personal protective equipment

Respiratory protection	In case of open handling or accidental release: particle mask or respirator with independent air supply
Hand protection	Protective gloves
Eye protection	Safety glasses

Section 9----Physical and Chemical Properties

Material Safety Data Sheet

Appearance	Almost white to pale yellow flowing powder
Identification	Positive
Content (as Vc)	Not less than 35.0% on the dried basis
Loss on drying	Not more than 8.0%
Heavy metals (as Pb)	Not more than 0.003%
Arsenic (as As)	Not more than 0.0003%
Note	Water-soluble part >90%

Section 10---- Stability and Reactivity

Stability	Stable under the conditions mentioned in section 7
Conditions to avoid	Heat Humidity
Materials to avoid	Oxidizing agents
Note	Slightly hygroscopic

Section 11---- Toxicological Information

Acute toxicity	LD ₅₀ >2000mg/kg (oral, rat)
Local effects	Eye: non-irritant (rabbit) Skin: non-irritant (rabbit) Skin: not phototoxic (guinea pig)
Sensitization	Non-sensitizing (guinea pig) Not photoallergenic (guinea pig)
Mutagenicity	Not mutagenic (Ames test)

Section 12----Ecological Information

Air pollution	Observe local/national regulations
---------------	------------------------------------

Section 13----Disposal Considerations

Waste from residues	Incinerate in qualified installation with flue gas scrubbing Observe local/national regulations regarding waste disposal
---------------------	---

Section 14----Transport Information

Note	Not classified by transport regulations
------	---

Material Safety Data Sheet

Section 15----Regulatory Information

Note	No classification and labeling according to EU
Emission limit (Switzerland)	50 mg/m ³ at mass-flux≥0.5kg/h (organic, particulate, class 1; own classification)

Section 16----Other Information

Use	Feed additive
Biological activity	1 I.U.(international unit) of Vitamin C corresponds to the activity of 50µg of pure ascorbic acid

The information in this MSDS is based on current scientific knowledge. It should not be taken as expressing or implying any warranty concerning product characteristics.
