

MATERIAL SAFETY DATA SHEET

Date Prepared: June 18, 2020
Version: 1.1
Product Name: MIYA-GOLD CaZ

SECTION 1: PRODUCT IDENTIFICATION

1.1 Identification of the mixture

MIYA-GOLD CaZ contains live *Clostridium butyricum* MIYAIRI588 strain that authorized for the used for the animal feed material in the EU and Japan. It is a white to light yellowish-white powder.

1.2 Use of the substance or mixture

MIYA-GOLD CaZ contains live *Clostridium butyricum* MIYAIRI588 strain and excipients of calcium carbonate and Zeolyte.

1.3 Company/undertaking identification

Contact person: Dr. Motomichi Takahashi (Director, Head of Research & Development)

Manufacture: Miyarisan Pharmaceutical Co., Ltd.

Address: 102-15, Nakanojo, Hanishina-Gun, Nagano, 389-0682, Japan

Telephone: +81-268-82-1122

Fax: +81-268-82-8877

Company responsible for the information regarding safety and traceability:

Contact person: Dr. Motomichi Takahashi (Director, Head of Research & Development)

Miyarisan Pharmaceutical Co., Ltd.

Address: 1-10-3, Kaminakazato, Kita-ku, Tokyo, 114-0016, Japan

Telephone: +81-3-3917-1191

Company responsible for placing the substance/preparation on the market within the Community:

Contact person: To be determined before launch

Address: To be determined before launch

Telephone: To be determined before launch

1.4 Emergency telephone numbers

Japan: +81-3-3917-1191; +81-80-4797-2796 (Dr. Motomichi Takahashi).

SECTION 2: HAZARDS IDENTIFICATION

Since MIYA-GOLD CaZ is a microbial substance, there are 2 potential hazards:

- The proteinaceous nature of the active substance may provoke skin, mucous membrane or respiratory sensitization in allergy-prone individuals.
- The small particle size and dusting propensity may cause respiratory irritation, if handle in a poorly ventilated environment with no breathing protection.

SECTION 3: COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Composition

MIYA-GOLD CaZ contains live *Clostridium butyricum* MIYAIRI588 strain and excipients of calcium carbonate and Zeolyte.

3.2 Information on ingredients

Clostridium butyricum MIYAIRI588 strain is a non-pathogenic strain of *Clostridium butyricum*, originally isolated from soil and widely used for the feed additives in the European country and Japan. The *Clostridium butyricum* MIYAIRI588 has been authorized with US GRAS substances by self GRAS determination.

3.3 Classification & concentration range

MIYA-GOLD CaZ, due to its proteinaceous nature, is classed as a potential respiratory sensitizer. The concentration range of *Clostridium butyricum* MIYAIRI588 strain in MIYA-GOLD CaZ is over 1.0×10^9 colony forming unit per g.

3.4 Classification, R-phrases, GHS pictogram, hazard & precautionary statements

R 42 – may cause sensitisation by inhalation.

R 43 – may cause sensitisation by skin contact.

Respiratory Sensitiser Category 1

GHS08 Pictogram – Danger

Hazard statement: H334

Precautionary statements: P261; P285; P304+P341; P342+P311; P501.

3.5 EINECS/CAS/IUPAC N°s

Not applicable

3.6 Description of characteristic of MIYA-GOLD CaZ to facilitate safe handling

MIYA-GOLD CaZ is a dry, powder that may be handled and stored as for any proteinaceous feed ingredient.

SECTION 4: FIRST AID MEASURES

No immediate medical attention is necessary.

4.1 Inhalation

If MIYA-GOLD CaZ is inhaled, remove the subject to a well-ventilated environment and allow to breath normally.

4.2 Eyes

If MIYA-GOLD CaZ comes in contact with the eyes, rinse out the eye with clean water, sterile isotonic saline or proprietary eyewash.

4.3 Skin

If MIYA-GOLD CaZ is spilt on skin, rinse the skin with clean water and dry.

4.4 Ingestion

If MIYA-GOLD CaZ is accidentally swallowed, allow the subject to drink a glass of potable water.

SECTION 5: FIRE-FLIGHTING MEASURES

Standard fore-fighting measures, extinguishing media (e.g. water, foam, powders), equipment and apparatus may be used.

SECTION 6: ACCIDENTAL RELEASE MEASURES

Any spilt MIYA-GOLD CaZ may be removed by sweeping up using a brush & pan, then cleaning surface with warm water & detergent.

SECTION 7: HANDLING AND STORAGE

7.1 Handling

Handle MIYA-GOLD CaZ in a well-ventilated environment with standard protective clothing (safety glasses, face mask, overalls, and closed footwear).

7.2 Storage

Simple custodial procedures (e.g. store in closed, original containers in a clean, dry storeroom).

7.3 Specific use(s)

MIYA-GOLD CaZ should be used according to standard procedures for premixtures and feeds (e.g. for user safety, breathing protection during handling and safety glasses).

SECTION 8: EXPOSURE CONTROL/PERSONAL PROTECTION

8.1 Exposure limit values

There are no exposure limit values. Monitoring procedures are those stipulated in the EU Feed Hygiene Regulation (Regulation EC N° 183/2005) in relation to traceability and monitoring of product or service complaints.

8.2 Exposure control**8.2.1 Occupational exposure control****8.2.1.a. Respiratory protection**

Use barrier ventilation system or handle in a well-ventilated environment and use a facemask that conforms to European Standard EN 149:2001, marked FFFP3-S for solids, protection factor 20.

8.2.1.b. Hand protection

Light cotton, latex or rubber gloves may be worn to prevent skin contact.

8.2.1.c. Eye protection

Safety glasses conforming to European Standard EN 166:2002

8.2.1.d. Skin protection

Light weight, long-sleeved overalls and closed footwear.

8.2.2 Environmental exposure control

Standard manufacturing procedures for non-toxic, non-hazardous biological waste.

SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

9.1 General information

Appearance: White to light yellowish-white.

Odour: None

9.2 Important health, safety and environmental information

pH:	N/A (no data available)
Boiling point:	N/A
Flash point:	N/A
Flammability:	N/A
Explosive properties:	N/A
Oxidising properties:	N/A
Vapour pressure:	N/A
Relative density:	N/A
Solubility:	Insoluble
Water solubility:	Insoluble
Fat solubility:	Insoluble
Partition coefficient:	N/A
Viscosity:	N/A
Vapour density (AIR=1):	N/A
Evaporation rate:	N/A

9.3 Other information

No other specific data are available.

SECTION 10: STABILITY AND REACTIVITY

MIYA-GOLD CaZ is stable, non-reactive, dry powder.

10.1 Condition to avoid

Store MIYA-GOLD CaZ in closed, original containers and avoid generating environmental dust from the product.

10.2 Material to avoid

None.

10.3 Hazardous decomposition products

None.

SECTION 11: TOXICOLOGICAL INFORMATION

The available data indicate that MIYA-GOLD CaZ products are non-toxic.

Sensitisation: MIYA-GOLD CaZ contains proteinaceous material and it has the potential to cause allergic reactions in sensitive individuals.

Irritation: Inhaled dust from MIYA-GOLD CaZ may cause respiratory irritation.

SECTION 12: ECOLOGICAL INFORMATION

MIYA-GOLD CaZ has no adverse environmental effects.

12.1 Ecotoxicity

None.

12.2 Mobility

None.

12.3 Persistence and degradability

MIYA-GOLD CaZ does not persist in the environment and disappears rapidly through biodegradation.

12.4 Bioaccumulative potential

None.

12.5 Results of PBT assessment

None.

12.6 Adverse effects

None.

SECTION 13: DISPOSAL CONSIDERATIONS

Handle as non-hazardous biological waste.

SECTION 14: TRANSPORT INFORMATION

RID/ADR: Non-hazardous for road transport.

IMDG: Non-hazardous for sea transport

IATA: Non-hazardous air transport

SECTION 15: REGULATORY INFORMATION

MIYA-GOLD CaZ is intended for the manufacture of mixed feed. The ingredient, *Clostridium butyricum* MIYAIRI588 strain has been authorized with feed additive in the EU and Japan and US GRAS substances by self GRAS determination.

SECTION 16: OTHER INFORMATION

Respiratory sensitiser Category 1 hazard.

DANGER

H334: May cause allergy or asthma symptoms or breathing difficulties if inhaled.

P261: Avoid breathing dust.

P285: In case of inadequate ventilation wear respiratory protection.

P304:+P341: IF INHALED: If breathing is difficult, remove victim to fresh air & keep at in a position comfortable for breathing.

P342+P311: If experiencing respiratory symptoms: Call a POISON CENTER or doctor/physician.

P501: Dispose of content and containers in accordance with the U.S. regulations.

R 42 – may cause sensitisation by inhalation.

R 43 – may cause se sensitisation by skin contact.
