

# Safety data sheet

Page: 1/11

BASF Safety data sheet according to UN GHS 4th rev.

Date / Revised: 23.05.2019

Version: 2.1

Product: **BalanGut™ LS P**

(ID no. 30724567/SDS\_GEN\_00/EN)

Date of print 24.05.2019

## 1. Identification

### Product identifier

**BalanGut™ LS P**

### Details of the supplier of the safety data sheet

Company:

BASF SE

67056 Ludwigshafen

GERMANY

Operating Division Nutrition and Health

Telephone: +49 621 60-48434

E-mail address: EN-global-safety-data@basf.com

### Emergency telephone number

International emergency number:

Telephone: +49 180 2273-112

## 2. Hazards Identification

### Classification of the substance or mixture

According to UN GHS criteria

No need for classification according to GHS criteria for this product.

### Label elements

Globally Harmonized System (GHS)

The product does not require a hazard warning label in accordance with GHS criteria.

BASF Safety data sheet according to UN GHS 4th rev.  
Date / Revised: 23.05.2019  
Product: **BalanGut™ LS P**

Version: 2.1

(ID no. 30724567/SDS\_GEN\_00/EN)

Date of print 24.05.2019

### Other hazards

#### According to UN GHS criteria

The product is under certain conditions capable of dust explosion. The product does not contain a substance fulfilling the PBT (persistent/bioaccumulative/toxic) criteria or the vPvB (very persistent/very bioaccumulative) criteria.

---

## 3. Composition/Information on Ingredients

### Substances

Not applicable

### Mixtures

#### Chemical nature

Preparation based on: Mono-, Di- and Triglycerides of C4, C8 and C10 saturated fatty acids, Silicon dioxide

---

## 4. First-Aid Measures

### Description of first aid measures

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

On skin contact:

Wash thoroughly with soap and water.

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

On ingestion:

Rinse mouth and then drink 200-300 ml of water.

### Most important symptoms and effects, both acute and delayed

Symptoms: The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11., (Further) symptoms and / or effects are not known so far

### Indication of any immediate medical attention and special treatment needed

Treatment: Symptomatic treatment (decontamination, vital functions).

---

## 5. Fire-Fighting Measures

### Extinguishing media

Suitable extinguishing media:

water spray, foam, dry powder, carbon dioxide

Unsuitable extinguishing media for safety reasons:

water jet

Additional information:

Avoid whirling up the material/product because of the danger of dust explosion.

### Special hazards arising from the substance or mixture

Acrylaldehyde, harmful vapours, carbon oxides

The substances/groups of substances mentioned can be released in case of fire. Evolution of fumes/fog. Burning produces harmful and toxic fumes. Dust explosion hazard.

### Advice for fire-fighters

Special protective equipment:

Wear a self-contained breathing apparatus.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Cool endangered containers with water-spray.

## 6. Accidental Release Measures

Dust can form an explosive mixture with air.

### Personal precautions, protective equipment and emergency procedures

Use personal protective clothing. Information regarding personal protective measures, see section 8.

Avoid dust formation.

### Environmental precautions

Do not discharge into drains/surface waters/groundwater.

### Methods and material for containment and cleaning up

For small amounts: Contain with dust binding material and dispose of.

For large amounts: Sweep/shovel up.

Dispose of absorbed material in accordance with regulations. Avoid raising dust. Use spark-proof tools and explosion-proof equipment.

## 7. Handling and Storage

### Precautions for safe handling

Ensure thorough ventilation of stores and work areas. Wear suitable protective clothing and eye/face protection. Avoid contact with the skin, eyes and clothing. Keep container tightly sealed. This product

---

BASF Safety data sheet according to UN GHS 4th rev.

Date / Revised: 23.05.2019

Version: 2.1

Product: **BalanGut™ LS P**

(ID no. 30724567/SDS\_GEN\_00/EN)

Date of print 24.05.2019

may cause irritations; wash your hands after every contact. Avoid dust formation. Provide exhaust ventilation if dust is formed.

Protection against fire and explosion:

The product is capable of dust explosion. Avoid dust formation. Prevent electrostatic charge - sources of ignition should be kept well clear - fire extinguishers should be kept handy. Use explosion-proof apparatus and fittings.

### **Conditions for safe storage, including any incompatibilities**

Further information on storage conditions: Keep container tightly closed and dry; store in a cool place.

### **Specific end use(s)**

For the relevant identified use(s) listed in Section 1 the advice mentioned in this section 7 is to be observed.

---

## **8. Exposure Controls/Personal Protection**

### **Control parameters**

#### Components with occupational exposure limits

56-81-5: Glycerol

107-92-6: Butyric acid

7631-86-9: Silicon dioxide

### **Exposure controls**

#### Personal protective equipment

Respiratory protection:

Breathing protection if breathable aerosols/dust are formed. Particle filter with low efficiency for solid particles (e.g. EN 143 or 149, Type P1 or FFP1)

Hand protection:

Chemical resistant protective gloves (EN 374)

Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:

chemical protection overall (f.e. according to EN 13982) if dust is formed.

#### General safety and hygiene measures

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is required additionally to the stated personal protection equipment. Avoid contact with skin. Do not breathe dust. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift. Store work clothing separately.

## 9. Physical and Chemical Properties

### Information on basic physical and chemical properties

|                                                     |                                                                 |                                          |
|-----------------------------------------------------|-----------------------------------------------------------------|------------------------------------------|
| Form:                                               | free flowing, powder                                            |                                          |

| pH value:                                           | not soluble                                                     |                                          |
| Melting point:                                      | The data refers to the carrier material.                        |                                          |
| Information on: Silicon dioxide                     |                                                                 |                                          |
| Melting point:                                      | 1.610 °C                                                        | (other)                                  |
|                                                     | Literature data.                                                |                                          |
| -----                                               |                                                                 |                                          |
| Boiling point:                                      | The substance / product decomposes therefore not determined.    |                                          |
| Flash point:                                        | not applicable, the product is a solid                          |                                          |
| Evaporation rate:                                   | The product is a non-volatile solid.                            |                                          |
| Flammability:                                       | not highly flammable                                            | (UN Test N.1 (ready combustible solids)) |
| Lower explosion limit:                              | For solids not relevant for classification and labelling.       |                                          |
| Upper explosion limit:                              | For solids not relevant for classification and labelling.       |                                          |
| Vapour pressure:                                    | not applicable, solid with a melting temperature over 300 °C    |                                          |
| Density:                                            | No data available.                                              |                                          |
| Relative vapour density (air):                      | The product is a non-volatile solid.                            |                                          |
| Solubility in water:                                | insoluble                                                       |                                          |
| Solubility (qualitative) solvent(s):                | Ethanol, ether                                                  |                                          |
|                                                     | partly soluble                                                  |                                          |
| Partitioning coefficient n-octanol/water (log Kow): | not applicable for mixtures                                     |                                          |
| Thermal decomposition:                              | approx. 160 °C                                                  |                                          |
|                                                     | No decomposition if stored and handled as prescribed/indicated. |                                          |

---

BASF Safety data sheet according to UN GHS 4th rev.

Date / Revised: 23.05.2019

Version: 2.1

Product: **BalanGut™ LS P**

(ID no. 30724567/SDS\_GEN\_00/EN)

Date of print 24.05.2019

---

Viscosity, dynamic: not applicable, the product is a solid

Viscosity, kinematic: not applicable, the product is a solid

Explosion hazard: Product is not explosive, however a dust explosion could result from an air / dust mixture. (other)

Fire promoting properties: Based on its structural properties the product is not classified as oxidizing.

**Other information**

Burning rate: The material doesn't meet the criteria specified in paragraph 33.2.1.4.4 of UN manual of tests and criteria. (UN Test N.1 (ready combustible solids))

Self heating ability: Currently, no data available

Minimum ignition energy: 10 - 30 mJ (25 °C) (DIN EN 13821)

Bulk density: approx. 750 kg/m<sup>3</sup> (20 °C)

---

**10. Stability and Reactivity****Reactivity**

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals: Corrosive effects to metal are not anticipated.

**Chemical stability**

The product is stable if stored and handled as prescribed/indicated.

**Possibility of hazardous reactions**

Accumulation of fine dust may entail the risk of a dust explosion in the presence of air.

**Conditions to avoid**

Avoid dust formation. See MSDS section 7 - Handling and storage.

**Incompatible materials**

Substances to avoid:

None known during use and storage if used according to instructions.

**Hazardous decomposition products**

Hazardous decomposition products:

No hazardous decomposition products if stored and handled as prescribed/indicated.

## 11. Toxicological Information

### Information on toxicological effects

#### Acute toxicity

Experimental/calculated data:  
mouse (oral): > 6.000 mg/kg

#### Irritation

Assessment of irritating effects:  
Based on available Data, the classification criteria are not met.

#### Germ cell mutagenicity

Assessment of mutagenicity:  
Based on available Data, the classification criteria are not met.

#### Carcinogenicity

Assessment of carcinogenicity:  
Based on available Data, the classification criteria are not met.

#### Reproductive toxicity

Assessment of reproduction toxicity:  
Based on available Data, the classification criteria are not met.

#### Developmental toxicity

Assessment of teratogenicity:  
Based on available Data, the classification criteria are not met.

#### Specific target organ toxicity (single exposure)

Remarks: Based on available Data, the classification criteria are not met.

#### Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:  
Based on available Data, the classification criteria are not met.

#### Aspiration hazard

Lack of data.

#### Other relevant toxicity information

The product has not been tested. The statement has been derived from the properties of the individual components.

---

## 12. Ecological Information

### Toxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. The product has not been tested. The statement has been derived from the properties of the individual components.

### Persistence and degradability

Assessment biodegradation and elimination (H<sub>2</sub>O):

Poorly biodegradable.

The organic component of the product is biodegradable. The product has not been tested. The statement has been derived from the properties of the individual components.

### Bioaccumulative potential

Assessment bioaccumulation potential:

Significant accumulation in organisms is not to be expected.

The product has not been tested. The statement has been derived from the properties of the individual components.

### Mobility in soil

Assessment transport between environmental compartments:

Volatility: The substance will not evaporate into the atmosphere from the water surface. The product has not been tested. The statement has been derived from the properties of the individual components.

### Other adverse effects

The product does not contain substances that are listed in Regulation (EC) 1005/2009 on substances that deplete the ozone layer.

---

## 13. Disposal Considerations

### Waste treatment methods

Observe national and local legal requirements.

Contaminated packaging:

---

BASF Safety data sheet according to UN GHS 4th rev.

Date / Revised: 23.05.2019

Version: 2.1

Product: **BalanGut™ LS P**

(ID no. 30724567/SDS\_GEN\_00/EN)

Date of print 24.05.2019

---

Uncontaminated packaging can be re-used.

Packs that cannot be cleaned should be disposed of in the same manner as the contents.

---

## 14. Transport Information

### Land transport
