

NU-MEGA MATERIAL SAFETY DATA SHEET

Item: Driphorm® HiDHA® 50

Statement of Hazardous Nature:

Not classified as containing hazardous ingredients according to criteria of Worksafe Australia. A spray dried powder containing 48% HiDHA® Tuna Oil, microencapsulated in a matrix of sodium caseinate, sugars and food grade antioxidants.

Company Details:

Company: Nu-Mega Ingredients
ABN 98 102 460 739

Address: 39 Pinnacle Road
Altona North VIC 3025

Postal Address: P.O. Box 1111
Altona Gate VIC 3025

Telephone No.: +61 (0) 3 8369 2100

Emergency: Haris Ishtaweera
+61 (0) 3 8369 2100

Identification

a) Product Name: Driphorm® HiDHA® 50
b) UN Number: None allocated
c) Hazchem Code: None applicable
d) CAS No.: None allocated

Dangerous Goods Class & Subsidiary Risk: None Applicable

Poisons Schedule Number: None Applicable

Use: Nutritional Supplement, Functional Food Ingredient

Physical Description/Properties:

a) Appearance: Free flowing light tan coloured powder with bland odour and flavour.
b) Vapour Pressure: No applicable
c) Specific Gravity: Not applicable
d) Flamm. Limit LEL/UEL: Not applicable
e) Flash Point: Not applicable

Product code: D201.010	Page 1 of 3	Approved by: 
Revision date: 18 th April 2024	REV: 005	Glenn Elliott - Director of Innovation & Quality

Ingredients:

Spray dried powder containing 48% HiDHA® Tuna Oil, microencapsulated in a matrix of sodium caseinate, sugars and food grade antioxidants.

Health Hazard Information:

Health Effects

The product might be an irritant to the eyes. Low order of toxicity for skin contact.

Threshold Limited Value	Not applicable
Toxicity	Food Grade

First Aid:

- | | |
|----------------|--|
| a) Skin: | Wash with soap and water. |
| b) Eyes: | Flush with water – particulates may scratch eye surfaces. |
| c) Ingestion: | Edible, Food Grade |
| d) Inhalation: | Minimise risks through ventilation may cause irritation. If there are breathing difficulties, seek medical advice. |

Precautions for Use:

- | | |
|---|--|
| a) Hazardous Reactions: | Powder and dust clouds are susceptible to fire and possible explosion in confined spaces. |
| b) Engineering controls: | Ventilation/dust extraction. |
| c) Conditions to Avoid: | High temperatures, sources of ignition and water. To maximise shelf life avoid prolonged exposure to air/oxygen. |
| d) Incompatibility: | (Materials to Avoid) Not applicable. |
| e) Hazardous | |
| Decomposition Products: Not applicable. | |

Personal Protection

- | | |
|----------------------------|--|
| a) Respiratory Protection: | If ventilation is inadequate or powdered product is handled for long periods, use dust mask. |
| b) Skin Protection: | Not applicable. |
| c) Eye Protection: | Safety glasses if product handling causes dusting. |

Safe Handling Information:

Storage and Transport:

Precautions to be taken in Handling & Storing:	Store cool, dry and away from products with a strong or foreign odour. Recommended 10°C to 25°C. Avoid contact with moisture.
--	---

Other Precautions:	Recommended 10°C to 25°C. Protect from direct sunlight. Keep away from heat, sparks and fire.
--------------------	---

Product code: D201.010	Page 2 of 3	Approved by: 
Revision date: 18 th April 2024	REV: 005	Glenn Elliott – Director of Innovation & Quality

Spills & Disposal:

Spills: Vacuum or scoop into suitable container, then sweep area and wash with water. Recovered product is not suitable for human consumption.

Disposal: Comply with applicable waste disposal regulations.

Fire/Explosion Hazard:

Extinguishing Media: Water, Foams, Carbon Dioxide, Dry Chemical

Protection Against Fire: Typical combustion products are carbon dioxide and carbon monoxide.

Other Information:

Environ. Protection: Avoid contaminating waterways. Fully biodegradable.

Packaging: As required by the National Code of Practice for the Labelling of Workplace Substances.
As required by the Standard for the Uniform Scheduling of Drugs and Poisons.
