

Safety data sheet

Page: 1/7

BASF Safety data sheet

Date / Revised: 07.06.2016

Product: **ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE**

Version: 3.0

(30463092/SDS_GEN_TH/EN)

Date of print 09.04.2026

1. Substance/preparation and manufacturer/supplier identification

ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE

Manufacturer/supplier:

BASF (Thai) Limited

23rd Floor, Emporium Tower, 622, Sukhumvit 24 Rd.,

Klongton, Klongtoey, Bangkok 10110, THAILAND

Telephone: +66 2624-1999

Telefax number: +66 2664-9254

E-mail address: Thailand-SDS-info@basf.com

Emergency information:

International emergency number:

Telephone: +49 180 2273-112

2. Hazard identification

Classification according to UN GHS 2009

Classification of the substance and mixture:

No need for classification according to GHS criteria for this product.

Label elements and precautionary statement:

The product does not require a hazard warning label in accordance with GHS criteria.

Other hazards which do not result in classification:

No specific dangers known, if the regulations/notes for storage and handling are considered.

3. Composition/information on ingredients

Chemical nature

BASF Safety data sheet
Date / Revised: 07.06.2016
Product: **ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE**

Version: 3.0

(30463092/SDS_GEN_TH/EN)

Date of print 09.04.2026

Preparation based on: polyamide (PA 66)

additives

4. First-Aid Measures

General advice:

Avoid contact with the skin, eyes and clothing.

If inhaled:

If difficulties occur after dust has been inhaled, remove to fresh air and seek medical attention.

On skin contact:

Wash thoroughly with soap and water. Burns caused by molten material require hospital treatment.

On contact with eyes:

In case of contact with the eyes, rinse immediately for at least 15 minutes with plenty of water. If irritation develops, seek medical attention.

On ingestion:

Rinse mouth and then drink plenty of water. If difficulties occur: Seek medical attention.

Note to physician:

Symptoms: No significant reaction of the human body to the product known.

Hazards: No hazard is expected under intended use and appropriate handling.

Treatment: Treat symptomatically.

5. Fire-Fighting Measures

Suitable extinguishing media:

water spray, foam, dry powder

Specific hazards:

At temperatures of > 320 °C can be emitted: ammonia, aqueous solution, carbon monoxide, carbon dioxide, cyclopentanone, hydrogen cyanide, amine derivatives, nitriles

Under special fire conditions traces of other toxic substances are possible. Formation of further decomposition and oxidation products depends upon the fire conditions.

Special protective equipment:

Wear a self-contained breathing apparatus.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental Release Measures

Personal precautions:

No special precautions necessary.

Environmental precautions:

No special precautions necessary.

BASF Safety data sheet
Date / Revised: 07.06.2016
Product: **ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE**

Version: 3.0

(30463092/SDS_GEN_TH/EN)

Date of print 09.04.2026

Methods for cleaning up or taking up:
For small amounts: Pick up with suitable appliance and dispose of.
For large amounts: Pick up with suitable appliance and dispose of.

Additional information: High risk of slipping due to leakage/spillage of product.

7. Handling and Storage

Handling

Protection against fire and explosion:
Take precautionary measures against static discharges.

Storage

Suitable materials for containers: Low density polyethylene (LDPE), High density polyethylene (HDPE), Aluminium, Carbon steel (Iron)

Storage stability:
| Protect against moisture.

8. Exposure controls and personal protection

Components with occupational exposure limits

The limit values will not be achieved if the product is processed proper and suitable ventilation is provided.

Personal protective equipment

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case of dust).

General safety and hygiene measures:

No special precautions necessary. After use of gloves apply skin-cleaning agents and skin cosmetics.

9. Physical and Chemical Properties

Form:	granules
Colour:	various, depending on the colourant
Odour:	odourless
Odour threshold:	not applicable

pH value:	not applicable

BASF Safety data sheet

Date / Revised: 07.06.2016

Version: 3.0

Product: **ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE**

(30463092/SDS_GEN_TH/EN)

Date of print 09.04.2026

Melting temperature:	approx. 260 °C	(DIN 53765)
Boiling range:	The substance / product decomposes therefore not determined.	
Flash point:	not applicable	
Evaporation rate:	The product is a non-volatile solid.	
Flammability (solid/gas):	not self-igniting	
Lower explosion limit:	For solids not relevant for classification and labelling.	
Upper explosion limit:	For solids not relevant for classification and labelling.	
Ignition temperature:	> 400 °C	(ASTM D1929)
Thermal decomposition:	> 320 °C	(TGA)
Self ignition:	not self-igniting	
Explosion hazard:	not explosive	
Vapour pressure:	not applicable	
Density:	1.10 - 1.20 g/cm ³ (20 °C)	(EN ISO 1183-1)
Relative density:	No data available.	
Bulk density:	500 - 800 kg/m ³	
Relative vapour density (air):	not applicable	
Solubility in water:	insoluble	
Partitioning coefficient n-octanol/water (log Pow):	not applicable	
Viscosity, kinematic:	not applicable, the product is a solid	

10. Stability and Reactivity

Conditions to avoid:

Temperature: > 320 °C

Thermal decomposition: > 320 °C (TGA)

Substances to avoid:
No substances known that should be avoided.

Hazardous reactions:
No hazardous reactions known.
The product is chemically stable.

Hazardous decomposition products:
ammonia, aqueous solution, carbon monoxide, carbon dioxide, cyclopentanone, hydrogen cyanide
amines, nitriles

11. Toxicological Information

Acute toxicity

Assessment of acute toxicity:
Contact with molten product may cause thermal burns.

Irritation

Assessment of irritating effects:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Experimental/calculated data:
Serious eye damage/irritation: May cause mechanical irritation.

Respiratory/Skin sensitization

Assessment of sensitization:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Germ cell mutagenicity

Assessment of mutagenicity:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Carcinogenicity

Assessment of carcinogenicity:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Reproductive toxicity

Assessment of reproduction toxicity:
Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Specific target organ toxicity (single exposure):

Assessment of STOT single:
not applicable

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

Aspiration hazard

No aspiration hazard expected.

Other relevant toxicity information

Based on our experience and the information available, no adverse health effects are expected if handled as recommended with suitable precautions for designated uses.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:

The product has not been tested. The statement has been derived from the structure of the product. There is a high probability that the product is not acutely harmful to aquatic organisms.

Mobility

Assessment transport between environmental compartments:

Study scientifically not justified.

Persistence and degradability

Assessment biodegradation and elimination (H₂O):

The product is virtually insoluble in water and can thus be separated from water mechanically in suitable effluent treatment plants.

Bioaccumulation potential

Bioaccumulation potential:

The product will not be readily bioavailable due to its consistency and insolubility in water.

13. Disposal Considerations

Check for possible recycling.

Incinerate in suitable incineration plant, observing local authority regulations.

Contaminated packaging:

Packs must be completely emptied.

Completely emptied packagings can be given for recycling.

BASF Safety data sheet
Date / Revised: 07.06.2016
Product: **ULTRAMID® A3K Q722 UNCOLORED POLYAMIDE**

Version: 3.0

(30463092/SDS_GEN_TH/EN)

Date of print 09.04.2026

14. Transport Information

Domestic transport:

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Regulations of the European union (Labelling)

The product does not require a hazard warning label in accordance with EC Directives.

Other regulations

16. Other Information

Recommended use: Polymer, for industrial processing only

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
