SAFETY DATA SHEET

Thiamine Mononitrate

1. Identification of the substance/preparation and of the company/undertaking

Identification of the substance/preparation

Prouduct Name: Thiamine Mononitrate

CAS NO.: 532-43-4

TSCA:TSCA 8(b) inventory: Thiamine Mononitrate

EC NO.: 208-537-4

Synonyms:

3-[(4-amino-2-methyl-5-pyrimidinyl)methyl]-5- (2-hydroxyethyl)-4-methylthiazolium nitrate

Chemical Formula: $C_{12}H_{17}N_5O_4S$

Molecular Weight: 327.36

REACH registration NO.: Not applicable

Company/undertaking identification:

Manufacture Name: Jiangsu Brother Vitamins CO., Ltd.

Address: Marine Economic Development Zone(S), Dafeng, Jiangsu, P.R.China

E-mail: chemical@brother.com.cn

Telephone: 086 573 87015337/086 573 87015336

Fax: 086 573 87015333

Telephone Number of Technical support: 086 515 83551603

2. Hazards identification

Physical-chemical hazard:Not applicable

Environmental hazard:Not applicable

Human Health hazard:May cause irritation to skin, eyes and respiratory tract.

Other information:Not applicable.

3. Composition/information on ingredients

Substance/mixture: Substance

Component(s): Thiamine Mononitrate

4. First aid measures

Inhalation:

Remove victim to fresh air and keep at rest in a position comfortable for breathing. Call a POISON CENTER or doctor/physician if you feel unwell.

Skin contact:

Remove/Take off immediately all contaminated clothing. Gently and thoroughly wash the contaminated skin with plenty of running water and non-abrasive soap. Be careful to clean folds, crevices, creases and groin. Cold water may be used. Cover the irritated skin with an emollient. If irritation persists, seek medical attention. Wash the contaminated clothing before reusing.

Eye contact:

Rinse cautiously with running water for several minutes. Keeping eyelids open. Cold water may be used. Do not use an eye ointment. Seek medical attention.

Ingestion:

Do not induce vomiting. Loose tight clothing such as a collar, tie, belt or waistband. If the victim is not breathing, perform mouth-to-mouth resuscitation. Seek immediate attention.

Protection of first-aiders:

A rescuer should wear personal protective equipment, such as rubber gloves and airtight goggles.

5. Fire-fighting measures

Suitable extinguishing media:

Dry chemical, foam, water spray, carbon dioxide.

Flammability of the product: May be combustible at high temperature.

Auto-ignition Temperature: No data available

Flash Point: No data available

Flammable limits: No data available

Products of Combustion: These products are carbon oxides (CO_x), nitrogen oxides (NO_x)

Fire Hazards in presence of various substance: No data available

Explosion Hazards in presence of various substance:

Risk of explosion of the product in presence of mechanical impact: No data available

Risk of explosion of the product in presence of static discharge: No data available

Fire fighting media and instructions:

small fire: use DRY chemical powder.

large fire: use foam, fog or water spray. Do not use water jet.

Special protective equipment for firefighters:

江苏兄弟维生素有限公司
JIANGSU BROTHER VITAMINS CO., LTD.

松未达

When extinguishing fire, be sure to wear personal protective equipment.

6. Accidental release measures

Small spill:

Use appropriate tools to put the spilled solid in a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and dispose of according to local and regional authority requirements.

Large spill:

Use a shover to put the material into a convenient waste disposal container. Finish cleaning by spreading water on the contaminated surface and allow to evacuate through the sanitary system.

7. Handling and storage

Handling

Precautions:

Keep away from heat. Keep away from sources of ignition. Empty containers pose a fine risk, evaporate the residue under a fume hood. Ground all equipment containing material. Do not breath dust.

Storage

Storage conditions: Store in a cool and dry place, preserve in tight, light-resistant containers. Store away from toxic and noxious substances

Packaging material: Law and customers requirmentare both followed.

8. Exposure control/Personal control

Engineering controls:

Use process enclosures, local exhaust ventilation, or other engineering controls to keep airborne leves; below recommended exposure limits. If user operations generate dust, fume or mist, use ventilation to keep exposure to airborne contaminants below the exposure limit.

Personal protection:

Splash goggles. Lab coat. Dust respirator. Be sure to use an approved/certified respirator or equivalent. Gloves.

Personal protection in case of a large spill:

Splash goggles. Full suit. Dust respirator. Boots. Gloves. A self contained breathing apparatus should be used to avoid inhalation of the product. Suggeated protective clothing might not be surfficient, consult a specialist before hadling the product. consult a specialist before hadling the product.

Exposure limits: Not applicable.

9. Physical and chemical properties

Physical state (20°C): Solid

Form: crystals or crystalline powder

Color: white or almost white

Odor: have a slight, characteristic odor

pH: 6.0-7.5

Solubility: Sparingly soluble in water, slightly soluble in alcohol, very slightly soluble in chloroform.

Melting point/freezing point: Melts at 198°C with some decomposition.

Boiling Point/Range: No data available

Flash Point: No data available

Explosive limits:

Lower: No data available

Upper: No data available

Density:

Bulk density: No data available

Tapped density: No data available

10. Stability and reactivity:

Stability: Stable under proper conditions.

Reactivity: No special reactivity has been reported

Incompatible materials: oxidizing agents

Hazardous Decomposition Products: Carbon monoxide, Carbon dioxide, Nitrogen oxides (NO_x), Sulphur oxides

11. Toxicological information:

Acute Toxicity:

ipr-mus LD50: 387 mg/kg

ivn-rbt LD50: 113 mg/kg

ivn-mus LD50: 84 mg/kg

orl-mus LD: >5 g/kg

Skin corrosion/irritation: No data available

Serious eye damage/irritation: No data available

Germ cell mutagenicity: No data available

Carcinogenicity: IARC = No data available

NTP = No data available

Reproductive toxicity: No data available

RTECS Number: XI7400000

12. Ecological information:

Ecotoxicity:

Fish: No data available

Crustacea: No data available

Algae: No data available

Persistence / degradability: No data available

Bioaccumulative potential(BCF): No data available

Mobility in soil

log Pow: No data available

Soil adsorption (Koc): No data available

Henry's Law constant(Pam³/mol): No data available

13. Disposal consideration

Recycle to process, if possible. Consult your local regional authorities. You may be able to dissolve or mix material with a combustible solvent and burn in a chemical incinerator equipped with an afterburner and scrubber system.

Observe all federal, state and local regulations when disposing of the substance.

14. Transport information

DOT Classification: Not a DOT controlled material (United States).

Identification: Not applicable.

Special Provisions for Transport: Not applicable.

15. Regulation information

Federal and State Regulations:

TSCA 8(b) inventory: Thiamine Mononitrate

Other Regulations: Not applicable.

Other Classifications:

WHMIS (Canada): Not controlled under WHMIS

DSCL(EEC): Not classified according to the EU regulations.

16. Other information

References:

Not applicable.

Other Special Considerations:

Not applicable.

Notice to reader:

- 1、 The products must be handled only by those who are familiar with specialized knowledge and have experience or under the guidance of those specialists throughout use from opening to storage and disposal. Safe usage conditions shall be set up on each user's own responsibility.
- 2、 The stated cautions are for normal handling only.
- 3、 If the products are to be used far behind the expected time of use or you have any questions, please feel free to contact us.
- 4、 This MSDS was prepared sincerely on the basis of the information we could obtain, however, any warranty shall not be given regarding the data contained and the assessment of hazards and toxicity. Prior to use, please investigate not only the hazards and toxicity information but also the laws and regulations of the organization, area and country where the products are to be used, which shall be given the first priority. Products are supposed to be used promptly after purchase in consideration of safety.
