

Safety data sheet

Page: 1/10

BASF Safety data sheet

Date / Revised: 19.04.2023

Product: **Apocarotinal Dispersion 20 MCT**

Version: 5.0

(30078425/SDS_GEN_TH/EN)

Date of print: 25.05.2026

1. Substance/preparation and manufacturer/supplier identification

Product name:

Apocarotinal Dispersion 20 MCT

Use: food additive(s)

Manufacturer/supplier:

BASF (Thai) Limited

23rd Floor, Emporium Tower, 622, Sukhumvit 24 Rd.,

Klongton, Klongtoey, Bangkok 10110, THAILAND

Telephone: +66 2624-1999

Telefax number: +66 2664-9254

E-mail address: Thailand-SDS-info@basf.com

Emergency information:

International emergency number:

Telephone: +49 180 2273-112

2. Hazard identification

Classification according to UN GHS 2009

Classification of the substance and mixture:

Skin sensitization: Cat.1

Label elements and precautionary statement:

Pictogram:

Signal Word:

Warning

BASF Safety data sheet
Date / Revised: 19.04.2023
Product: **Apocarotinal Dispersion 20 MCT**

Version: 5.0

(30078425/SDS_GEN_TH/EN)

Date of print: 25.05.2026

Hazard Statement:

H317 May cause an allergic skin reaction.

Precautionary Statements (Prevention):

P280 Wear protective gloves.
P261 Avoid breathing mist or vapour or spray.
P272 Contaminated work clothing should not be allowed out of the workplace.

Precautionary Statements (Response):

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.
P333 + P313 If skin irritation or rash occurs: Get medical attention.
P362 + P364 Take off contaminated clothing and wash it before reuse.

Precautionary Statements (Disposal):

P501 Dispose of contents and container to hazardous or special waste collection point.

Other hazards which do not result in classification:
High risk of slipping due to leakage/spillage of product.

3. Composition/information on ingredients

Chemical nature

Substance nature: mixture

Preparation based on:

8'-apo-beta-caroten-8'-al (Content (W/W): 20 %), glycerides, mixed decanoyl and octanoyl (Content (W/W): 79 %), D,L-alpha-tocopherol (Content (W/W): 1 %)

Hazardous ingredients

D,L-alpha-tocopherol

Content (W/W): $\geq 1\%$ - $< 3\%$

Skin Sens.: Cat. 1B

CAS Number: 10191-41-0

4. First-Aid Measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air, seek medical attention.

On skin contact:

Wash thoroughly with soap and water

On contact with eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

BASF Safety data sheet
Date / Revised: 19.04.2023
Product: **Apocarotinal Dispersion 20 MCT**

Version: 5.0

(30078425/SDS_GEN_TH/EN)

Date of print: 25.05.2026

On ingestion:

Immediately rinse mouth and then drink 200-300 ml of water, seek medical attention.

Note to physician:

Symptoms: Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11., (Further) symptoms and / or effects are not known so far

Treatment: Treat according to symptoms (decontamination, vital functions), no known specific antidote.

5. Fire-Fighting Measures

Suitable extinguishing media:

| water spray, dry powder, alcohol-resistant foam, carbon dioxide

Unsuitable extinguishing media for safety reasons:

| water jet

Specific hazards:

2-propenal, harmful vapours, carbon oxides

Evolution of fumes/fog. The substances/groups of substances mentioned can be released in case of fire. Burning produces harmful and toxic fumes.

Special protective equipment:

Wear self-contained breathing apparatus and chemical-protective clothing.

Further information:

Do not spray water directly on fire, product will float and could be reignited on surface of water. Can form explosive gas/air mixtures. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations. Cool endangered containers with water-spray.

6. Accidental Release Measures

Personal precautions:

Use personal protective clothing. Information regarding personal protective measures, see section 8. Ensure adequate ventilation. Do not breathe vapour/spray. Avoid contact with the skin, eyes and clothing.

Environmental precautions:

Do not discharge into drains/surface waters/groundwater.

Methods for cleaning up or taking up:

For large amounts: Dike spillage. Pump off product.

For residues: Contain with absorbent material (e.g. sand, silica gel, acid binder, general purpose binder, sawdust).

Dispose of absorbed material in accordance with regulations.

Additional information: High risk of slipping due to leakage/spillage of product.

7. Handling and Storage

Handling

Ensure thorough ventilation of stores and work areas. Wear suitable protective clothing and eye/face protection. Avoid contact with the skin, eyes and clothing. Keep container tightly sealed.

Protection against fire and explosion:

Take precautionary measures against static discharges. Avoid all sources of ignition: heat, sparks, open flame.

Temperature class: T2 (Autoignition temperature >300 °C).

Storage

Further information on storage conditions: Keep container tightly closed and dry; store in a cool place. Protect from the effects of light. Protect from air. Keep under inert gas.

8. Exposure controls and personal protection

Components with occupational exposure limits

No substance specific occupational exposure limits known.

Personal protective equipment

Respiratory protection:

Respiratory protection in case of vapour/aerosol release. Particle filter with medium efficiency for solid and liquid particles (e.g. EN 143 or 149, Type P2 or FFP2)

Hand protection:

Suitable chemical resistant safety gloves (EN ISO 374-1) also with prolonged, direct contact (Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN ISO 374-1): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) etc. Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g. temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing. Manufacturer's directions for use should be observed because of great diversity of types.

Eye protection:

Safety glasses with side-shields (frame goggles) (e.g. EN 166)

Body protection:

Body protection must be chosen depending on activity and possible exposure, e.g. apron, protecting boots, chemical-protection suit (according to EN 14605 in case of splashes or EN ISO 13982 in case of dust).

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is required additionally to the stated personal protection equipment. Avoid contact with skin.

BASF Safety data sheet
Date / Revised: 19.04.2023
Product: **Apocarotinal Dispersion 20 MCT**

Version: 5.0

(30078425/SDS_GEN_TH/EN)

Date of print: 25.05.2026

No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift. Store work clothing separately.

9. Physical and Chemical Properties

Form:	oily	
Colour:	dark brown	
Odour:	odourless	
Odour threshold:	not applicable, odour not perceivable	
pH value:	substance/mixture is non-soluble (in water)	
solidification temperature:	5 - 10 °C	
Boiling point:	The substance / product decomposes therefore not determined.	
Flash point:	187.5 °C	(ISO 2719)
Evaporation rate:	not determined	
Flammability (solid/gas):	hardly combustible	(derived from flash point)
Lower explosion limit:	For liquids not relevant for classification and labelling., The lower explosion point may be 5 - 15 °C below the flash point.	
Upper explosion limit:	For liquids not relevant for classification and labelling.	
Ignition temperature:	360 °C	(DIN 51794)
Thermal decomposition:	>= 190 °C	(DSC (DIN 51007))
SADT:	Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.	
Explosion hazard:	not explosive	
Fire promoting properties:	not fire-propagating	
Vapour pressure:	< 0.0000001 Pa (20 °C) Information based on the main component/s.	(calculated)
Density:	approx. 0.9 g/cm ³ (20 °C)	
Relative vapour density (air):	> 1 Heavier than air.	(estimated)
Solubility in water:	sparingly soluble	

BASF Safety data sheet
Date / Revised: 19.04.2023
Product: **Apocarotinal Dispersion 20 MCT**

Version: 5.0

(30078425/SDS_GEN_TH/EN)

Date of print: 25.05.2026

Partitioning coefficient n-octanol/water (log Pow):
not applicable for mixtures

Viscosity, dynamic: approx. 30 mPa.s
(20 °C)
Information based on the main
component/s.

Viscosity, kinematic: approx. 33 mm²/s
(20 °C) (calculated (from dynamic
viscosity))

10. Stability and Reactivity

Conditions to avoid:
See SDS section 7 - Handling and storage.

Thermal decomposition: ≥ 190 °C (DSC (DIN 51007))

Substances to avoid:
atmospheric moisture, atmospheric oxygen

Corrosion to metals: Corrosive effects to metal are not anticipated.

Hazardous reactions:
No hazardous reactions if stored and handled as prescribed/indicated.

Hazardous decomposition products:
No hazardous decomposition products if stored and handled as prescribed/indicated.

Chemical stability:
The product is stable if stored and handled as prescribed/indicated.

Reactivity:
No hazardous reactions if stored and handled as prescribed/indicated.

11. Toxicological Information

Routes of exposure

Assessment of acute toxicity

Virtually nontoxic after a single ingestion. Virtually nontoxic by inhalation. Virtually nontoxic after a single skin contact.

Information on: 8'-apo-beta-caroten-8'-al

Acute oral toxicity

Experimental/calculated data:
LD50 rat (oral): $> 10,000$ mg/kg (BASF-Test)

Symptoms

Information, i.e. additional information on symptoms and effects may be included in the GHS labeling phrases available in Section 2 and in the Toxicological assessments available in Section 11.
(Further) symptoms and / or effects are not known so far

Irritation

Assessment of irritating effects:
Not irritating to eyes and skin.

Information on: 8'-apo-beta-caroten-8'-al
Experimental/calculated data:
Skin corrosion/irritation rabbit: non-irritant (OECD Guideline 404)

Information on: 8'-apo-beta-caroten-8'-al
Experimental/calculated data:
Serious eye damage/irritation rabbit: non-irritant (OECD Guideline 405)

Respiratory/Skin sensitization

Assessment of sensitization:
Sensitization after skin contact possible.

Information on: D,L-alpha-tocopherol
Experimental/calculated data:
Mouse Local Lymph Node Assay (LLNA) mouse: skin sensitizing (OECD Guideline 406)

Germ cell mutagenicity

Assessment of mutagenicity:
Based on the ingredients, there is no suspicion of a mutagenic effect.

Information on: 8'-apo-beta-caroten-8'-al
Assessment of mutagenicity:
No mutagenic effect was found in various tests with bacteria and mammalian cell culture.

Carcinogenicity

Assessment of carcinogenicity:
Based on available data, the classification criteria are not met.

Reproductive toxicity

Assessment of reproduction toxicity:
Based on the ingredients, there is no suspicion of a toxic effect on reproduction.

Information on: 8'-apo-beta-caroten-8'-al
Assessment of reproduction toxicity:
The results of animal studies gave no indication of a fertility impairing effect.

Developmental toxicity

Assessment of teratogenicity:

Based on available data, the classification criteria are not met.

Specific target organ toxicity (single exposure)

Remarks: Based on available data, the classification criteria are not met.

Repeated dose toxicity and Specific target organ toxicity (repeated exposure)

Assessment of repeated dose toxicity:

Based on available data, the classification criteria are not met.

Aspiration hazard

No aspiration hazard expected.

Other relevant toxicity information

The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. Ecological Information

Ecotoxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

Information on: 8'-apo-beta-caroten-8'-al

Toxicity to fish:

LC50 (96 h) 1,778 mg/l, Brachydanio rerio (OECD Guideline 203, static)

Tested above maximum solubility. The details of the toxic effect relate to the nominal concentration.

Information on: 8'-apo-beta-caroten-8'-al

Microorganisms/Effect on activated sludge:

EC20 (0.5 h) > 1,000 mg/l, activated sludge, domestic (OECD Guideline 209, aerobic)

Mobility

Information on: glycerides, mixed decanoyl and octanoyl

Assessment transport between environmental compartments:

The substance will not evaporate into the atmosphere from the water surface.

Adsorption to solid soil phase is expected.

Persistence and degradability

Information on: 8'-apo-beta-caroten-8'-al

Information on: glycerides, mixed decanoyl and octanoyl

Bioaccumulation potential

Information on: 8'-apo-beta-caroten-8'-al

Information on: glycerides, mixed decanoyl and octanoyl

Assessment bioaccumulation potential:

Based on a weight of evidence, the compound will not bioaccumulate.

Additional information

Other ecotoxicological advice:

The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. Disposal Considerations

Observe national and local legal requirements.

14. Transport Information**Domestic transport:**

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

Sea transport

IMDG

	Not classified as a dangerous good under transport regulations
UN number or ID number:	Not applicable
UN proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
	Marine pollutant: no
Special precautions for user	None known

Date of print: 25.05.2026

Air transport

IATA/ICAO

	Not classified as a dangerous good under transport regulations
UN number or ID number	Not applicable
Proper shipping name:	Not applicable
Transport hazard class(es):	Not applicable
Packing group:	Not applicable
Environmental hazards:	Not applicable
Special precautions for user	None known

15. Regulatory Information**Other regulations**

If other regulatory information applies that is not already provided elsewhere in this safety data sheet, then it is described in this subsection.

16. Other Information

Any other intended applications should be discussed with the manufacturer. Corresponding occupational protection measurements must be followed.

Vertical lines in the left hand margin indicate an amendment from the previous version.

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. This safety data sheet is neither a Certificate of Analysis (CoA) nor technical data sheet and shall not be mistaken for a specification agreement. Identified uses in this safety data sheet do neither represent an agreement on the corresponding contractual quality of the substance/mixture nor a contractually designated use. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
