

Safety Data Sheet

V-BRIGHT BA LIQUID.

Revision: 02

Revision date 19/10/2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1	Product identifier	V-BRIGHT BA LIQUID
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	Relevant identified uses:	Whiten paper pulp, surface sizing and coating. Whiten cotton, linen and cellulose fiber, and brighten light-colored cellulose fabrics.
1.3	Details of the supplier of the safety data sheet	
	Company:	VIV INTERCHEM 22 Sukhumvit 42, Sukhumvit Rd, Prakanong, Klongtoey, Bangkok 10110 Telephone: +662 712 1044 E-mail address: thasanaprapha@vivgroup.com
1.4	Emergency telephone number	
	International emergency number:	Telephone: 02-7094600-4 #214

SECTION 2: Hazards Identification	
2.1	Hazards summarizing
	Hazard classification: No harmful hazard to human and environment

SECTION 3: Composition/information on ingredients		
3.1	Chemical characterization: Mixture consisting of the following dangerous and non-dangerous components:	
	Chemical nature:	Anionic, Fluorescent brightener
	Stilbene Triazine Derivative	25 ± 2%
	Water	55 ± 2%
	Urea	20%

SECTION 4: First aid measures		
4.1	Description of first aid measures	
	After inhalation:	Keep calm, immediately remove to air-fresh place, and in serious case see doctor. Immediately throw up, drink great amount of water and immediately see doctor.
	After skin contact:	Thoroughly washing with clear water
	After eye contact:	Keep eyes opened, flush eyes with great amount of running water for at least 15 minutes, and in serious case see doctor.

SECTION 5: Firefighting measures

5.1	Extinguishing media	
	Extinguishing method and extinguishing agent:	▪ Foam. ▪ Carbon dioxide ▪ Water spray or fog ▪ Dry power
5.2	Hazard characteristics	No
5.3	Note during fire fighting:	At fire fighting, provide oxygen supply unit and wear protective clothes.

SECTION 6: Accidental release measures

6.1	Emergency treatment:	Collect leaked liquid and prevent it from directly flowing into natural water body.
6.2	Elimination method:	The water leaked into ditches due to carelessness during operation shall be treated with routine sewage treatment method to meet requirements for environmental protection.

SECTION 7: Handling and storage

7.1	Operation:	Under normal conditions it is unnecessary to adopt special method.
	Storage:	It shall be prevented from freezing during storage and the container shall be kept sealed. It is unnecessary to adopt special method.

SECTION 8: Exposure controls/personal protection

8.1	Control parameters	
	Maximum allowable concentration:	Not limited
	Monitoring method:	No
	Engineering control:	Not required
	Protection of hands:	The employees shall wear protective gloves to avoid prolonged contact with this product.
	Protection of body:	Replace the contaminated clothes, if any.
	Protection of aspiration system:	Not required
	Eye protection:	Employees shall wear safety goggles to prevent eyes from contacting with this product. The eyes, if splashed with this product, shall be timely washed. The shops or places where the eyes of employees would likely contact this product shall be provided with eye washing basin for urgent use.

Safety Data Sheet

V-BRIGHT BA LIQUID.
Revision: 02
Revision date 19/10/2023

Other protections:	The employees shall wear protective clothes to avoid repeated or prolonged skin contact with this product.
--------------------	--

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties	
	Physical state:	Liquid
	Colour:	Amber transparent Liquid
	Ionicity	Anionic
	Melting point/freezing point	Not applicable
	Boiling point/range	Not applicable
	Flash Point	Not applicable
	Flammability	Not flammable
	Evaporation	Not applicable
	Auto ignition temperature	Not applicable
	pH	8.0-10.0
	Self ignition:	Not applicable
	Viscosity	< 50 mPa.s (25 °C)
	Solubility in/Miscibility with Water	Miscible, No data available.
	Explosive properties	Not applicable
	Vapour pressure:	Not applicable
	Density	1.0 - 1.3 g/cm ³ (25 °C)

SECTION 10: Stability and reactivity

10.1	Substances to avoid	If correctly used, it generates no corrosion or dangerous reaction. Storage stability: In case of prolonged storage below icing point, BA-L will be frozen. If it is molten after moving to room temperature or heating below 50°C, its brightening performances will not be impaired, and even in hot summer it may be normally stored and used.
-------------	----------------------------	---

SECTION 11: Toxicological information

11.1	Information on toxicological effects (For mixture/ major components within mixture)	
	If it is correctly used, on the basis of our knowledge and acquisitioned data it is non-toxic. Accidental impacts:	
	Skin irritation:	After common industrial treatment or treatment by professional personnel it is low-toxic.

V-BRIGHT BA LIQUID.

Revision: 02

Revision date 19/10/2023

	Eye irritation:	After common industrial treatment or treatment by professional personnel it is low-toxic.
	Intake:	It may be deemed as low-toxicity.
	Inhalation:	After common industrial treatment or treatment by professional personnel it is low-toxic.

SECTION 12: Ecological information

12.1	Ecological toxicity:	No applicable data available
12.2	Classification of impact on environment:	No applicable data available
12.3	Other hazardous action:	Without pretreatment, this product shall not be directly discharged to natural waterbody.

SECTION 13: Disposal considerations

13.1	Waste treatment methods	
	Disposal method:	Routine sewage treatment.
	Notes to disposal:	In China it shall be discharged as per water-body discharge stipulations in Chinese standard GB 8978-1996 "Comprehensive sewage discharge standard" and in other countries and regions properly disposed and discharged in accordance with local laws and regulations.

SECTION 14: Transport information

This product belongs to non-dangerous goods and may be transported as per health and safety regulations for general chemical products.

14.1	Notes during transportation:	Preventing packages from damage
14.2	Marine transportation-International Marine Dangerous Goods (IMDG) IMDG status:	Not Restricted.
14.3	Air transport: International Civil Aviation Organization (ICAO) ICAO requirements:	Not Restricted.

SECTION 15: Regulatory information

15.1	Regulations of the European union (Labelling) / National legislation/Regulations	
	This document is prepared in accordance with the state standard "General rules for preparation of chemical safety data sheet" (GB16483-2000). This document is prepared in accordance with MSDS requirements on OSHA Hazard Communication Standard 29 CFR 1910.1200. OSHA classification: Safe	

SECTION 16: Other information

	Note:	The data are not intentionally used for continuous contact with mucous membrane, blood or broken skin, still not for human body inoculation test, unless qualified in state or international safety test. Because of wide applications of the product is unable to recommend the product to use in all the application fields and ensure sufficient safety of the product and also bear no liabilities. This product shall be stored, handled and used in accordance with industrial sanitary practice and any legal provision.
--	--------------	--

The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.

END OF DATA SHEET.
