

V-BRIGHT TA LIQUID.

Revision: 01

Revision date 16/05/2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1	Product identifier	V-BRIGHT TA LIQUID
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	Relevant identified uses:	Whiten paper pulp, surface sizing and coating. Whiten cotton, linen and cellulose fiber, and brighten light-colored cellulose fabrics..
1.3	Details of the supplier of the safety data sheet	
	Company:	VIV INTERCHEM 22 Sukhumvit 42, Sukhumvit Rd, Prakanong, Klongtoey, Bangkok 10110 Telephone: +662 712 1044 E-mail address: thasanaprapha@vivgroup.com
1.4	Emergency telephone number	
	International emergency number:	Telephone: 02-7094600-4 #214

SECTION 2: Hazards Identification	
2.1	Classification of the substance according to Regulation (EC) No: 1272/2008 i.e., CLP regulation
	Possible Hazards (according to Directive 67/548/EWG or 1999/45/EC) No specific dangers known, if the regulations/notes for storage and handling are considered

SECTION 3: Composition/information on ingredients		
3.1	Chemical characterization: Mixture consisting of the following dangerous and non-dangerous components:	
	Chemical nature:	anionic, Stilbene disulfonic acid derivative

SECTION 4: First aid measures		
4.1	Description of first aid measures	
	After inhalation:	Fresh air. If difficulties occur: Obtain medical attention.
	After skin contact:	After contact with skin, wash immediately with plenty of water and soap. Wash contaminated clothing before reuse. If irritation develops, seek medical attention.
	After eye contact:	Wash affected eyes for at least 15 minutes under running water with eyelids held open.
	After ingestion:	Rinse mouth and then drink plenty of water.
	Note to physician:	Treatment: Treat symptomatically.

Safety Data Sheet

V-BRIGHT TA LIQUID.

Revision: 01

Revision date 16/05/2023

--	--	--

SECTION 5: Firefighting measures

5.1	Extinguishing media	
	Suitable extinguishing media:	▪ Foam. ▪ Carbon dioxide ▪ Water spray or fog ▪ Dry power
	Unsuitable extinguishing media:	The product has not been tested.
5.2	Special hazards arising from the substance	carbon oxides, nitrogen oxides, sulfur oxides
5.3	Special protective equipment	Wear a self-contained breathing apparatus

SECTION 6: Accidental release measures

6.1	Personal precautions,	Use personal protective clothing.
6.2	Environmental precautions	Do not discharge into the subsoil/soil. Do not discharge into drains/surface waters/groundwater.
6.3	Methods and material for containment and cleaning up	For small amounts: Pick up with suitable absorbent material (e.g. sand, sawdust, general-purpose binder, kieselguhr). Correctly dispose of recovered product immediately. For large amounts: Dike spillage. Pick up with suitable appliance and dispose of.

SECTION 7: Handling and storage

7.1	Precautions for safe handling	Handle in accordance with good industrial hygiene and safety practice. Avoid contact with skin and eyes. Ensure adequate ventilation.
	Storage:	▪ Further information on storage conditions: Store in a cool, dry, well-ventilated area.
		Storage stability: Storage temperature: 5 - 60 ° C

V-BRIGHT TA LIQUID.

Revision: 01

Revision date 16/05/2023

		Protect from temperatures below: 0 ° C The packed product is destroyed at low temperatures or by frost.
--	--	--

SECTION 8: Exposure controls/personal protection

8.1	Control parameters	
	Ingredients with limit values that require monitoring at the workplace:	Ensure adequate ventilation to minimize the build-up of dust.
8.2	Exposure controls	
	General protective and hygienic measures:	Hands and/or face should be washed before breaks and at the end of the shift. Avoid contact with skin and eyes.
	Protection of hands:	Suitable chemical resistant safety gloves (EN 374) also with prolonged, direct contact(Recommended: Protective index 6, corresponding > 480 minutes of permeation time according to EN374): E.g. nitrile rubber (0.4 mm), chloroprene rubber (0.5 mm), butyl rubber (0.7 mm) and other Supplementary note: The specifications are based on tests, literature data and information of glove manufacturers or are derived from similar substances by analogy. Due to many conditions (e.g.temperature) it must be considered, that the practical usage of a chemical-protective glove in practice may be much shorter than the permeation time determined through testing
	Eye protection:	Safety glasses with side-shields (frame goggles) (e.g. EN 166)

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties	
	Physical state:	Liquid
	Colour:	Amber transparent liquid
	Odour:	odourless
	Melting point/ freezing point	approx. -1 ° C
	Boiling point/range	approx. 100 ° C
	Flash Point	> 100 ° C
	Flammability	Not flammable

Safety Data Sheet

V-BRIGHT TA LIQUID.
Revision: 01
Revision date 16/05/2023

	Evaporation	Not applicable
	Auto ignition temperature	Not applicable
	pH	8.0-10.0
	Self ignition:	Temperature: > 500 ° C
	Viscosity	< 50 mPa.s (25 ° C)
	Solubility in/Miscibility with Water	Miscible No data available.
	Explosive properties	Product does not present an explosion hazard.
	Vapour pressure:	23 mbar (20 ° C)
	Density	approx. 1.0 - 1.2 g/cm ³ (25 ° C)

SECTION 10: Stability and reactivity

10.1	Substances to avoid	No substances known that should be avoided.
10.2	Hazardous reactions	No hazardous reactions when stored and handled according to instructions. No hazardous decomposition products if stored and handled as prescribed/indicated.
10.3	Conditions to Avoid	No special precautions other than good housekeeping of chemicals.

SECTION 11: Toxicological information

11.1	Information on toxicological effects (For mixture/ major components within mixture)	
	Experimental/calculated data::	LD50 rat (oral): > 5,000 mg/kg Data of the active component LC50 rat (by inhalation): > 17,600 mg/m ³ LD50 rabbit (dermal): > 3,000 mg/kg
	Skin corrosion/irritation	Skin corrosion/irritation rabbit: non-irritant (other)
	Serious eye damage/ irritation	Serious eyes damages/irritation rabbit: non-irritant
	Respiratory or Skin Sensitization:	Experimental/calculated data: Patch-Test human: Non-sensitizing.
	Germ cell mutagenicity	Assessment of mutagenicity: The substance was not mutagenic in microorganisms. Experimental/calculated data: mouse: negative (OECD Guideline 474)

Safety Data Sheet

V-BRIGHT TA LIQUID.

Revision: 01

Revision date 16/05/2023

	Repeated dose toxicity and Specific target organ toxicity (repeated exposure)	Experimental/calculated data: (OECD Guideline 407) NOAEL: 50 mg/kg
	Other relevant toxicity information	The product has not been tested. The statement has been derived from the properties of the individual components.

SECTION 12: Ecological information

12.1	Persistence and degradability	Elimination information: approx. 25 % (OECD Guideline 302 B)
12.2	Assessment of aquatic toxicity:	There is a high probability that the product is not acutely harmful to aquatic organisms.
12.3	Toxicity to fish:	LC50 (96 h) > 1,000 mg/l, Lepomis macrochirus
12.4	Aquatic invertebrates:	EC50 (24 h) > 1,000 mg/l, Daphnia magna (OECD Guideline 202, part 1)
12.5	Aquatic plants:	EC50 (72 h) > 1,000 mg/l, Selenastrum capricornutum (OECD Guideline 201)
12.6	Soil living organisms:	LC0 (14 d) > 10,000 mg/kg, Eisenia foetida (OECD Guideline 207)
12.7	Microorganisms/Effect on activated sludge:	EC50 > 300 mg/l, activated sludge
12.8	sum parameter	Biochemical oxygen demand (BOD) Incubation period 5 d: 0 mg/g
12.9	Other adverse effects	Adsorbable organically-bound halogen (AOX): 0 %
12.10	Additional information	Other ecotoxicological advice: The product has not been tested. The statement has been derived from products of a similar structure and composition.

SECTION 13: Disposal considerations

13.1	Waste treatment methods	
	Product	Incinerate in suitable incineration plant, observing local authority regulations.
	Contaminated packaging	Contaminated packaging should be emptied as far as possible and disposed of in the same manner as the substance/product. Uncontaminated packaging may be treated as household waste.

V-BRIGHT TA LIQUID.

Revision: 01

Revision date 16/05/2023

	Uncontaminated packaging can be recycled
--	--

SECTION 14: Transport information

14.1	Land transport: ADR, RID	Not classified as a dangerous good under transport regulations
14.2	Inland waterway transport: ADNR	Not classified as a dangerous good under transport regulations
14.3	Sea transport: IMDG	Not classified as a dangerous good under transport regulations
14.4	Air transport: IATA/CAO	Not classified as a dangerous good under transport regulations

SECTION 15: Regulatory information

15.1	Regulations of the European union (Labelling) / National legislation/Regulations
	The product does not require a hazard warning label in accordance with EC Directives.

SECTION 16: Other information

	Department issuing MSDS	Any other intended applications should be discussed with the manufacturer. Vertical lines in the left hand margin indicate an amendment from the previous version. The data contained in this safety data sheet are based on our current knowledge and experience and describe the product only with regard to safety requirements. The data do not describe the product's properties (product specification). Neither should any agreed property nor the suitability of the product for any specific purpose be deduced from the data contained in the safety data sheet. It is the responsibility of the recipient of the product to ensure any proprietary rights and existing laws and legislation are observed.
