| 5.1 | <b>Extinguishing media</b>                        |                                                                                                                                                                            |
|     | Suitable extinguishing media:                     | <ul style="list-style-type: none"> <li>Foam.</li> <li>Carbon dioxide</li> <li>Water spray or fog</li> </ul> Fight larger fires with water spray or alcohol resistant foam. |
|     | Unsuitable extinguishing media:                   | No relevant information available.                                                                                                                                         |
| 5.2 | <b>Special hazards arising from the substance</b> | Specific hazards during firefighting Hazardous gases/vapours may be released.                                                                                              |
| 5.3 | <b>Advice for fire fighters</b>                   |                                                                                                                                                                            |
|     | Protective equipment:                             | <ul style="list-style-type: none"> <li>Wear self contained breathing apparatus for fire fighting if necessary.</li> </ul>                                                  |
| 5.4 | <b>Further information</b>                        | Dispose of fire residues and contaminated extinguishing water in accordance with local regulation.                                                                         |

## VIVABASE GREEN 2AF LIQUID.

Revision: 02

Revision date 16/07/2023

### SECTION 6: Accidental release measures

|     |                                                                            |                                                                                                                                                                         |
|-----|----------------------------------------------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 6.1 | <b>Personal precautions, Protective equipment and emergency procedures</b> | Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas. In case of insufficient ventilation, wear suitable respiratory equipment. |
| 6.2 | <b>Environmental precautions</b>                                           | <ul style="list-style-type: none"> <li>Prevent product from entering drains. Do not flush into surface water.</li> </ul>                                                |
| 6.3 | <b>Methods and material for containment and cleaning up</b>                | Take up mechanically and collect in suitable container for disposal. Dispose of in accordance with local regulation.                                                    |
| 6.4 | <b>Reference to other sections</b>                                         | For disposal see section 13.                                                                                                                                            |

### SECTION 7: Handling and storage

|     |                                                                                                  |                                                                                                                                                                                                                                                                                                                                            |
|-----|--------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 7.1 | <b>Precautions for safe handling</b>                                                             | Advice on safe handling: Smoking, eating and drinking should be prohibited in the application area. Avoid formation of dust and aerosols. Avoid exposure-obtain Special instructions before use. Provide appropriate exhaust ventilation at places where dust is formed                                                                    |
|     | <b>Information about fire- and explosion protection:</b>                                         | No special protective measures against fire require                                                                                                                                                                                                                                                                                        |
| 7.2 | <b>Conditions for safe storage, including any incompatibilities</b>                              |                                                                                                                                                                                                                                                                                                                                            |
|     | <b>Storage:</b>                                                                                  |                                                                                                                                                                                                                                                                                                                                            |
|     | Requirements for storage<br>Areas and containers<br>Further information on<br>Storage conditions | <ul style="list-style-type: none"> <li>Keep container tightly closed in a dry, cool and well-ventilated place</li> <li>Protect from physical damage.</li> <li>Keep away from direct sunlight and sources of ignition and heating</li> <li>Protect from temperatures below: 0 °C</li> <li>Protect from temperatures above: 60 °C</li> </ul> |
| 7.3 | <b>Specific end uses</b>                                                                         | <ul style="list-style-type: none"> <li>Not applicable</li> </ul>                                                                                                                                                                                                                                                                           |

### SECTION 8: Exposure controls/personal protection

|     |                                                                         |                                                                        |
|-----|-------------------------------------------------------------------------|------------------------------------------------------------------------|
| 8.1 | <b>Control parameters</b>                                               |                                                                        |
|     | Ingredients with limit values that require monitoring at the workplace: | Ensure adequate ventilation to minimize the build-up of dust.          |
| 8.2 | <b>Exposure controls</b>                                                |                                                                        |
|     | General protective and hygienic measures:                               | Prevent product from entering drains. Do not flush into surface water. |

# Safety Data Sheet

**VIVABASE GREEN 2AF LIQUID.**
**Revision: 02**
**Revision date 16/07/2023**

|                         |                                                                                                                                                                                                                                                                          |
|-------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Respiratory protection: | In case of dust formation: use effective dust mask. If the respirator is the sole means of protection, use a full-face supplied air respirator. Use respirators and components tested and approved under appropriate. Government standards such as NIOSH(US) or CEN (EU) |
| Protection of hands:    |  For hygiene reasons PVC industrial glove or rubber gloves are recommended                                                                                                              |
| Eye protection:         | Wear safety glass with side protection or goggles to protect against dust particles                                                                                                                                                                                      |
| Body protection:        | Protective clothes and safety shoes. Avoid direct contact with skin                                                                                                                                                                                                      |

## SECTION 9: Physical and chemical properties

|            |                                                              |                                               |

| 10.2 | <b>Chemical stability-<br/>Thermal<br/>Decomposition/Conditions<br/>To be avoided:</b> | The product is chemically stable.                                                                                                   |
| 10.3 | <b>Possibility of hazardous<br/>reactions</b>                                          | No data available                                                                                                                   |
| 10.4 | <b>Conditions to Avoid</b>                                                             | Below 0 °C                                                                                                                          |
| 10.5 | <b>Incompatible materials:</b>                                                         | No data available                                                                                                                   |
| 10.6 | <b>Hazardous decomposition<br/>products:</b>                                           | No decomposition if stored and applied as directed. Thermal decomposition can lead to release of Carbon oxides Sulphur oxides, etc. |

## SECTION 11: Toxicological information

|      |                                                                                            |                                    |                        |
|------|--------------------------------------------------------------------------------------------|------------------------------------|------------------------|
| 11.1 | <b>Information on toxicological effects (For mixture/ major components within mixture)</b> |                                    |                        |
|      | Acute toxicity: LD/LC50 values relevant for classification:                                | Oral                               | LD50 >2383 mg/kg (Rat) |
|      | Skin corrosion/irritation                                                                  | Non irritant                       |                        |
|      | Serious eye damage/ irritation                                                             | Non irritant                       |                        |
|      | Respiratory or Skin Sensitization:                                                         | Non irritant                       |                        |
|      | Germ cell mutagenicity                                                                     | Non irritant                       |                        |
|      | Carcinogenicity                                                                            | Not listed as a carcinogen by IARC |                        |
|      | Reproductive toxicity                                                                      | Not applicable                     |                        |
|      | Aspiration hazard                                                                          | No available information           |                        |

## SECTION 12: Ecological information

|      |                                           |                                                                                                |
|------|-------------------------------------------|------------------------------------------------------------------------------------------------|
| 12.1 | <b>Persistence and degradability</b>      | No data available.                                                                             |
| 12.2 | <b>Toxicity</b>                           | Acute aquatic toxicity estimate:> 100 mg/l, Calculation method.                                |
| 12.3 | <b>Bio-accumulative potential</b>         | No data available.                                                                             |
| 12.4 | <b>Mobility in soil</b>                   | No data available.                                                                             |
| 12.5 | <b>Results of PBT and vPvB assessment</b> |                                                                                                |
|      | PBT & vPvB                                | This mixture contains on substance considered to be persistent bioaccumulating nor toxic (PBT) |
| 12.6 | <b>Other adverse effects</b>              | Product does not contain any organic halogens.                                                 |
