

Safety Data Sheet

VIVASOL YELLOW SZ.

Revision: 01

Revision date 16/05/2023

SECTION 1: Identification of the substance/mixture and of the company/undertaking		
1.1	Product identifier	VIVASOL YELLOW SZ
1.2	Relevant identified uses of the substance or mixture and uses advised against	
	Relevant identified uses:	Use as the dyeing for the Paper industry.
1.3	Details of the supplier of the safety data sheet	
	Company:	VIV INTERCHEM 22 Sukhumvit 42, Sukhumvit Rd, Prakanong, Klongtoey, Bangkok 10110 Telephone: +662 712 1044 E-mail address: thasanaprapha@vivgroup.com
1.4	Emergency telephone number	
	International emergency number:	Telephone: 02-7094600-4 #214

SECTION 2: Hazards Identification		
2.1	Classification of the substance according to Regulation (EC) No: 1272/2008 i.e., CLP regulation	
	Classification according CLP regulation	Not classified according to CLP regulation
2.2	Label elements: Labeling according to Regulation (EC) No 1272/2008 (CLP regulation)	
	Labeling according Regulation (EC) No: 1272/2008	Void
	Signal word	Void
	Hazard statements	Void
	Precautionary statements	This product is a mixture of various ingredients

SECTION 3: Hazards identification	
3.1	The product is classified as "Non hazardous" substance

SECTION 4: First aid measures

4.1	Description of first aid measures	
	General information:	Do not induce vomiting. If vomiting occurs naturally, have casualty lean forward to reduce the risk of aspiration. Seek medical attention immediately.
	After inhalation:	Remove to fresh air, if not breathing give artificial respiration. If breathing is difficult, give oxygen and get immediate medical attention.
	After skin contact:	After contact with skin, wash immediately with plenty of water and soap. Get medical attention if irritation occurs.
	After eye contact:	In case of contact with eyes, rinse immediately with plenty of water and seek medical advice.

SECTION 5: Firefighting measures

5.1	Extinguishing media	
	Suitable extinguishing/Restrictions	▪ Dry chemical powder. ▪ Carbon dioxide ▪ Water spray Fight larger fires with water spray or alcohol resistant foam. Do not use water jet under pressure
5.2	Special hazards arising from the substance	These products are carbon oxides (CO,CO ₂), nitrogen oxides(NO, NO ₂ ...)
5.3	Advice for fire fighters	
	Protective equipment:	Wear self-contained breathing apparatus and chemical-protective clothing.

SECTION 6: Accidental release measures

6.1	Personal precautions, Protective equipment and emergency procedures	▪ Wear protective equipment. ▪ Keep unprotected persons away. ▪ Avoid personal contact.
6.2	Environmental precautions	▪ Do not allow to enter sewage system. Pump as much as possible for later disposal and then absorb in high absorbing material, sawdust or sand or earth, and collect for later disposal. Clean up affected area with minimum of water (preferably high pressure), and recover colored washes for later disposal. Disposal according to the local legislation.
6.3	Spillage procedure	Clean up under expert's guidance by mechanical means or by water

SECTION 7: Handling and storage

7.1	Precautions for safe handling	General advice: As with all industrial chemicals, use good industrial practices when handling. Avoid eye, skin, and clothing contact. Do not inhale. Do not taste or swallow. Use only with adequate ventilation.
	Information about fire- and explosion protection:	No special measures required. Keep ignition sources away - Do not smoke.
7.2	Conditions for safe storage, including any incompatibilities	
	Storage:	Keep container tightly closed in a dry, cool and well-ventilated place. Temperature tolerance: Protect from temperatures below: 0 ° C Protect from temperatures above: 60 ° C
	Packaging Materials Recommended use	Perferably use original container.

SECTION 8: Exposure controls/personal protection

8.1	Control parameters	
	Ingredients with limit values that require monitoring at the workplace:	Substance does not contain any ingredients that require monitoring at the work place.
8.2	Exposure controls	
	General protective and hygienic measures:	When using do not eat, drink or smoke. Wash hands thoroughly after handling
	Occupational exposure limits	A respirator is not needed under normal and intended conditions of product use.
	Personal protective	Respiratory protection : Approved dust respirator
	Equipments	Hand protection : Gloves Eye protection : Chemical goggles, face shield Skin protection : Cotton or synthetic apron, gumboots.

SECTION 9: Physical and chemical properties

9.1	Information on basic physical and chemical properties	
	Physical state:	Liquid
	Colour:	Yellow
	Odour:	odourless

Safety Data Sheet

VIVASOL YELLOW SZ.

Revision: 01

Revision date 16/05/2023

	Melting point/ freezing point	No data available
	Boiling point/range	approx. 100 ° C
	Flash Point	No data available
	Flammability	Not flammable
	Lower and upper explosion limit	Product does not have explosive properties
	Auto ignition temperature	Not applicable
	pH value at 25 °C	7.5-9.0
	Viscosity at 25 °C	< 100 mPa.s
	Solubility in/Miscibility with Water at 20 °C:	miscible
	Explosive properties	Product does not present an explosion hazard.
	Vapour pressure:	Not applicable
	Density at 25 °C	1.00-1.25 g/cm ³
	Decomposition temperature	> No data available

SECTION 10: Stability and reactivity

10.1	Reactivity	Stable at ambient temperature and under normal conditions of use and storage.
10.2	Chemical stability- Thermal Decomposition/Conditions To be avoid	Stable under normal conditions
10.3	Hazardous decomposition products	Not know
10.4	Materials to avoid	Not applicable

SECTION 11: Toxicological information

11.1	Information on toxicological effects (For mixture/ major components within mixture)	
	Acute toxicity: LD/LC50 values relevant for classification:	LD50 / oral / rat: > 2,000 mg/kg
	Skin corrosion/irritation	Non irritant
	Serious eye	Non irritant

VIVASOL YELLOW SZ.**Revision: 01****Revision date 16/05/2023**

	damage/ irritation	
	Inhalation	Non irritant

SECTION 12: Ecological information

12.1	Eco-toxicological data	a) Toxicity to aquatic invertebrates Daphnia magna/48 h/EC0: > 100 mg/l (OECD 202) b) Toxicity to microorganisms: activated sludge/3 h/IC50: > 100 mg/l (OECD 209) c) Fish toxicity Brachydanio rerio/96 h/LC50: > 100 mg/l (OECD Guide-line 203) D) Biodegradation: Test method: OECD Guideline 302 B Degree of elimination: 25 - 50 % (21 Days) Evaluation: Partially eliminated by adsorption on effluent treatment sludge
12.2	Bio-accumulative potential	a) Chemical oxygen demand (COD): approx. 150 mg/g b) Biochemical oxygen demand (BOD): approx. 0 mg/g c) Bioaccumulation: no data available
12.3	Mobility	no data available

SECTION 13: Disposal considerations

13.1	Waste treatment methods	
	Methods of disposal	In accordance with Federal/State/Local environmental control regulation
	Waste of residues	Dispose must be made according to official regulations.
	Contaminated packaging	Contaminated packages must be cleaned before they can be recycled. Non-cleaned packages must be considered as a waste-product

SECTION 14: Transport information

14.1	International Air Transport Association (IATA)	Special shipping information: Not classified as a dangerous good under transport regulations.
-------------	---	---

Safety Data Sheet

VIVASOL YELLOW SZ.

Revision: 01

Revision date 16/05/2023

14.2	International Maritime Dangerous Goods Code (IMDG)	Special shipping information: Not classified as a dangerous good under transport regulations.
------	---	---

SECTION 15: Regulatory information

15.1	Safety, health and environmental regulations/legislation specific for the mixture	
	Canada: Domestic Substances List (DSL):	All components either exempt or listed on the DSL
	US: Toxic Substances Control Act (TSCA):	All component(s) comprising this product are either exempt or listed on the TSCA inventory

SECTION 16: Other information

		Recipients must assess for themselves the risk at the workplace as required by local/state regulations. The product should be stored, handled and in accordance with good industrial hygiene practices and in conformity with any legal regulation. The information contained herein is based on the present state of our knowledge and is intended to describe our products from the point of safety requirements. It should not, therefore, be construed as guaranty of specific properties.
