SANMORIN OT-70N , Sanyo Kasei (Thailand),. Ltd. , MSDS No. 3465001

Prepared Date : October 6, 2004

MATERIAL SAFETY DATA SHEET

1. Product and Company Identification

Product name : SANMORIN OT-70N

Intended use : Pigment dispersant

MSDS No. : 3465001

Supplier

Name : Sanyo Kasei (Thailand),. Ltd.

Address : 22 Soi Sukhumvit 42, Sukhumvit Rd., Prakanong, Klongtoey, Bangkok 10110, Thailand

Emergency telephone number : +66-(0)-3896-1643-44

Telephone number (Information) : +66-(0)-2390-2061-68, +66-(0)-2390-2091-98

Fax number : +66-(0)-2712-2094

2. Composition/Information on Ingredients

Substance/Preparation : Preparation

Chemical Name/Generic Name

Sulfosuccinate-type anionic surfactant

Propylene glycol

Water

CAS RN #

Proprietary

57-55-6

-

Wt. %

Approx. 70

Approx. 16

Approx. 14
(total 100)

Ingredients contributing to the hazard : None

3. Hazards Identification

Most Important Hazards

Health Effects

Environmental Effects

Physical/Chemical Hazard

Specific Hazards

Classification

: Irritant

: Causes skin and eye irritation.-

: May not be readily biodegradable.

: Combustible if heated, after evaporation of water.

: No information is available.

EU

: Xi

4. First-Aid Measures

General information:

Always seek medical attention if symptoms develop that are possibly due to exposure through skin or eye contact or through inhalation or ingestion.

- Inhalation** : Remove to fresh air and restore breathing.
- Skin contact** : Flush affected skin with soap and water.
- Eye contact** : Immediately flush eyes with plenty of water for at least 15 minutes including under eyelids. Seek medical attention.
- Ingestion** : Give 1 or 2 glasses of milk or water. Do not induce vomiting. If vomiting should occur spontaneously, keep airway clear. Seek medical attention.

5. Fire-fighting Measures

Extinguishing media

- Suitable** : Carbon dioxide, dry chemical, foam, water fog
- Not suitable** : Water jet

Specific hazards : Generate toxic gases (carbon oxides, hydrocarbons etc.) in a fire.

Specific methods : Keep away from sources of ignition and use appropriate extinguishing media. Firefighters should be upwind position.

Protection of firefighters : Wear self-contained positive pressure breathing apparatus and full firefighting protective clothing.

6. Accidental Release Measures

Personal precautions : Wear adequate personal protective clothing and equipment.

Environmental precautions : Do not discharge into drains and surface waters.

Methods for cleaning up : Stop leaks. Provide adequate ventilation to spill area.

Avoid ignition sources such as sparks, flame.

Small spills; Absorb with sand or earth. Sweep and put in a labeled waste container for disposal.

Large spills; Dike for later disposal. Vacuum or sweep material and put in a labeled waste container for disposal.

Information for prevention of secondary hazards:

Isolate the hazard area and deny entry for unnecessary and unprotected personnel.

7. Handling and Storage

Handling

- Technical measures** : Use adequate ventilation.
Equip eye wash facility, safety shower in the work area.
- Precautions** : Avoid contact with eyes, skin and clothing.
Avoid breathing vapor, fume or mist.
- Safe handling advice** : Wash hands and face thoroughly after handling.

Storage

- Technical measures** : Store in a well-ventilated area.
- Storage conditions** : Store in a cool and dry place away from heat, sparks and flame.
Keep container tightly closed.
- Incompatible products** : Strong oxidizing agents etc.

8. Exposure Controls/Personal Protection

Engineering measures to reduce exposure

- : Ventilation may be needed in application where vapor or solution mist can be generated.

Control parameter

Limit values

- ACGIH TLV (2004)** : Not established

Personal protective equipment

- Respiratory protection** : Not required in normal works.
- Hand protection** : Wear impervious gloves.
- Eye protection** : Wear safety glasses.
- Skin and body protection** : Wear suitable clothing.
- Hygiene measures** : Eye wash facility, safety shower

9. Physical and Chemical Properties

Physical state

Form	: Liquid (at 20°C)
Color	: Pale yellow
Odor	: Specific odor
pH	: Approx. 6 (1% aqueous solution of the product)

Specific temperature/temperature range at which changes in physical state occur

Pour point	: Below -5 °C (23°F)
Boiling point	: 100°C (212°F) (at 101 kPa) (water)
Decomposition temperature	: No data
Flash point	: None (Cleveland Open Cup)
Vapor pressure	: No data
Vapor density (Air=1)	: No data
Autoignition temperature	: No data
Explosion properties	: No data
Specific gravity	: 1.08 (at 20°C)
Solubility	

Water : Soluble

Other data

Viscosity : No data

10. Stability and Reactivity

Stability	: Stable under normal conditions
Hazardous reaction	: Not occur. No self-reactivity
Conditions to avoid	: Flame
Materials to avoid	: Strong oxidizing agents etc.
Hazardous decomposition products	: Carbon oxides, hydrocarbons etc.

11. Toxicological Information

Acute toxicity

Acute oral toxicity	: LD50 1,800mg/kg (rat) (anionic surfactant of this product)
	: LD50 25,600mg/kg (rat) (propylene glycol)
Acute dermal toxicity	: No information is available.
Acute inhalation toxicity	: No information is available.

Local effects

Acute dermal irritation	: Moderate irritant (rabbit) P.I.I.=4.2
Acute eyes irritation	: At least severe irritant (rabbit)
Sensitization	: No data.
Chronic toxicity	: No information is available.
Long term toxicity	: No information is available.

Specific effects

Carcinogenicity	: Not listed on IARC Monographs.
Mutagenicity	: No data.

12. Ecological Information

Mobility	: No information is available.
Persistence/Degradability	: 0 to 9% by BOD (anionic surfactant of this product) 87 to 92% by BOD (propylene glycol)
Bioaccumulation	: BCF <0.9 (0.5mg/L, 6W, cyprinus carpio) (anionic surfactant of this product)
Toxicity to fish	: No information is available.
Other information	
BOD5	: 680mg/L (1,000ppm aqueous solution of this product)
CODMn	: 191mg/L (1,000ppm aqueous solution of this product)

13. Disposal Considerations

Waste from residue	: Incinerate under controlled conditions in accordance with federal, state and local regulations. Any disposal practice must be in compliance with all local and national regulations.
Contaminated packaging	: Dispose in accordance with federal, state and local laws and regulations.

14. Transport Information

International regulations

Land	: Transport in accordance with your country and regions regulations (RID, ADR, DOT etc.).
Sea	: Transport in accordance with IMDG Code.
Air	: Transport in accordance with ICAO-TI/IATA-DGR.

UN Classification

UN Class	: Not applicable
UN No.	: Not applicable
Proper Shipping Name	: Not applicable

15. Regulatory Information

Inventory status

US TSCA	: Listed
EU EINECS	: Listed
CANADA DSL	: Listed
AUSTRALIA AICS	: Listed
CHINA IECSC	: Listed
KOREA ECL	: Listed
PHILIPPINE PICCS	: Listed

16. Other Information

EU classifications

Classification	: Irritant
Symbol (s)	: Xi
Risk phrase (s)	: R38 Irritating to skin. R41 Risk of serious damage to eyes.
Safety phrase (s)	: S36/37 Wear suitable protective clothing and gloves. S39 Wear eye/face protection.
