Safety data sheet INCOBlue® AdBlue®

1. Identification of the substance/preparation and company/undertaking

Product name : INCOBlue® AdBlue®

Use of the substance / preparation : Additive for reduction of NOx emission from diesel engine exhausts.

Supplier : Innoco Oil Pte Ltd
36 Tanjong Penjuru
Singapore 609031

Tel : +65 6265 5366

Fax : +65 6265 0988

Emergency telephone : +65 6265 5366
Number

2. Composition/information on ingredients

Substance/preparation : Preparation

Chemical characterization : Concentrated aqueous solution containing urea.

Chemical Identity	CAS	EINECS	Symbol(s)	R-phrases	Conc.
Water	7732-18-5	231-791-2			68.2 – 66.8
Urea	57-13-6	200-315-5			31.8 – 33.2

There are no ingredients or additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

3. Hazards identification

The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendments. The preparation is non-hazardous.

Classification of the Substance/Mixture Poisons Schedule: Not Applicable

Classification: Not Applicable

Version: 1.3

Date of issue: 02/09/2021

Label Elements

GHS Label Elements : Not Applicable
Hazard Statement/s : Not Applicable

Precautionary Statements - Prevention : Not Applicable
Precautionary Statements - Response : Not Applicable
Precautionary Statements - Storage : Not Applicable
Precautionary Statements - Disposal : Not Applicable

Classification : Not classified.
No known significant effects or critical hazards.

Other hazards Results of PBT and vPvB assessment :

Product does not meet the criteria for PBT or vPvB according to Regulation (EC) No. 1907/2006, Annex XIII.

See section 11 for more detailed information on health effects and symptoms.

4. First-aid measures

Inhalation : Move exposed person to fresh air.
Obtain medical attention if symptoms occur. In case of inhalation of decomposition products in a fire, symptoms may be delayed.

Ingestion : Wash out mouth with water.
If material has been swallowed and the exposed person is conscious, give small quantities of water to drink.
Obtain medical attention if large quantities are swallowed.

Skin contact : Wash contaminated skin with soap and water.
Remove contaminated clothing and shoes.
Obtain medical attention if persistent irritation occur.

Eye contact : Immediately flush eyes with plenty of water, occasionally lifting the upper and lower eyelids.
Check for and remove any contact lenses. Continue to rinse for at least 10 minutes. Get medical attention if irritation occurs.

Version: 1.3

Date of issue: 02/09/2021

INNOCO OIL PTE LTD

36 Tanjong Penjuru, Singapore 609031 • Tel: (65) 6265 5366 • Fax: (65) 6265 0988
Email: sales@innocooil.com Website: <http://www.innocooil.com>
Company No. 199400113W GST Reg. No. M2-0119063-X

Powered by Trust

General : Move the victim to a safe area as soon as possible.
If unconscious, place in recovery position and seek medical advice. If not breathing, if breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel.

Maintain an open airway. Loosen tight clothing such as a collar, tie, belt or waistband. Allow the victim to rest in a well-ventilated area.

Protection of first-aiders: No action shall be taken involving any personal risk or without suitable training.

See section 11 for more detailed information on health effects and symptoms.

5. Fire-fighting measures

Suitable

Extinguishing Media: Foam, water spray, dry chemical powder, carbon dioxide, sand or earth may be used for small fires only.

Not suitable : Do not use water in a jet.

Special exposure

Hazard : In a fire or if heated, a pressure increase will occur and the container may burst.
Promptly isolate the scene by removing all persons from the vicinity of the incident if there is a fire. No action shall be taken involving any personal risk or without suitable training.

Hazardous

combustion : Decomposition products may include the following
Products materials: Carbon oxides, Nitrogen oxides, Ammonia, cyanuric acid.

Special protective

Equipment for

fire-fighters : Fire-fighters should wear appropriate protective equipment and self-contained breathing apparatus (SCBA) with a full face-piece operated in positive pressure mode.

6. Accidental release measures

General	:	Avoid contact with spilled or released material.
Personal precautions	:	Provide adequate ventilation. Put on appropriate personal protective equipment (see section 8).
Environmental precautions contact	:	Avoid dispersal of spilt material and runoff and with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Large spill	:	Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Absorb with dry earth, sand or other non-combustible material. Contaminated absorbent material may pose the same hazard as the spilled product. Note: see section 1 for emergency contact information and section 13 for waste disposal.
Small spill	:	Stop leak if without risk. Move containers from spill area. Absorb with liquid-binding material (sand, diatomite, universal binders etc.) or use a spill kit.

7. Handling and storage

Handling	:	Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Keep in the original container or an approved alternative made from a compatible material, kept tightly closed when not in use. Provide adequate ventilation.

Storage : Keep container tightly closed and sealed until ready for use. Use appropriate containment to avoid environmental contamination. Store away from incompatible materials (see section 10). Keep away from food, drink and animal feeding stuffs.

Packaging materials
Recommended : Use original container – high density polyethylene, stainless steel.

Unsuitable materials : Non-ferrous metals.

8. Exposure controls/personal protection

Exposure limit values

<u>Ingredient name</u>	<u>Occupational exposure limits</u>
------------------------	-------------------------------------

No exposure limit value known.	
--------------------------------	--

Recommended monitoring
Procedures : If this product contains ingredients with exposure limits, personal, workplace atmosphere or biological monitoring may be required to determine the effectiveness of the ventilation or other control measures and/or the necessity to use respiratory protective equipment. Reference should be made to European standard En 689 for methods for the assessment of exposure by inhalation to chemical agents and national guidance documents for methods for the determination of hazardous substances.

Hand protection : Use chemical-resistant, impervious gloves. Personal hygiene is a key element of effective hand care. After using gloves, hands should be washed and dried thoroughly. Application of a non-perfumed moisturizer is recommended.

Eye protection : Use safety eyewear designed to protect against splash of liquids.

Skin protection	:	Avoid contact with skin. Wear suitable protective clothing.
Environmental exposure Equipment	:	Emissions from ventilation or work process should be checked to ensure they comply with the requirements of environmental protection legislation.

9. Physical and chemical properties

Appearance

Physical state	:	Liquid.
Colour	:	Colourless.
Odour	:	Ammonia.

Important health, safety and environmental information

Flash Point	:	Not Applicable
Flammable Limit	:	Not Applicable
Auto-Ignition Temperature	:	Not Applicable
pH	:	8.0 to 11.0
Viscosity	:	Dynamic: 1.4 mPa·s (1,4 cP) [25 °C]
Density	:	1.090 g/cm ³ [20 °C (68°F)]
Melting point	:	-11.5 °C (11.3°F)
Boiling Point	:	103°C (217.4°F)
Solubility	:	Easily soluble in the following materials: cold water and hot water.

10. Stability and reactivity

Stability	:	The product is stable. Under normal conditions of storage and use, hazardous polymerisation will not occur.
Conditions to avoid	:	Extremes of temperature and direct sunlight.
Materials to avoid	:	Strong oxidizing agents.
Hazardous decomposition	:	Under normal conditions of storage and use, hazardous decomposition products should not be produced.

11. Toxicological information

Potential acute health effects

Inhalation	:	Exposure to decomposition products may cause a health hazard. Serious effects may be delayed following exposure.
Skin	:	Not expected to be a hazard.
Eye	:	Not expected to be a hazard.
Carcinogenicity	:	Components are not known to be associated with carcinogenic effects.

Potential chronic health effects

No known significant effects or critical hazards.

Over-exposure signs/symptoms

No specific data.

12. Ecological information

Environmental effects	:	The preparation is not classified as dangerous according to Directive 1999/45/EC and its amendment.

Aquatic ecotoxicity
Conclusion/Summary : Practically non-toxic to aquatic organisms.

Biodegradability
Conclusion/Summary : Readily biodegradable

Mobility : Large volumes may penetrate soil and could contaminate groundwater.

13. Disposal consideration

Methods of disposal : Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Do not dispose into the environment, in drains or in water courses. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor.

Hazardous waste : Within the present knowledge of the supplier, this product is not regarded as hazardous waste, as defined by EU directive 91/689/EEC.

The product is a non-hazardous material for land transport, railway transport, sea transport and air transport. (ADR, RID, UN, IMO, IATA/ICAO)

15. Regulatory information

Classification and labelling have been determined according to EU Directives 67/548/EEC and 1999/45/EC (including amendments) and take into account the intended product use.

Risk phrases	:	This product is not classified according to EU legislation.
Product use	:	Industrial applications.
Europe inventory	:	Europe inventory: All components are listed or exempted.
Chemical Inventory Status AICS	:	All components are listed or exempt.
