

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 1/10

(30528322/SDS_GEN_US/EN)

1. Identification

Product identifier used on the label

Covi-ox® T-30 P

Recommended use of the chemical and restriction on use

Recommended use*: antioxidant, food additive(s)

Unsuitable for use: Not intended for sale to or use by the general public.

* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Details of the supplier of the safety data sheet

Company:
Kensing, LLC

Contact address:
2525 South Kensington Ave.
Kankakee, IL 60901, USA

Emergency telephone number

24 Hour Emergency Response Information
CHEMTREC: 1-800-424-9300

Other means of identification

Synonyms: Concentrate of Tocopherols

2. Hazards Identification

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Classification of the product

Combustible Dust Combustible Dust (1) Combustible Dust

Label elements

Signal Word:
Warning

Hazard Statement:

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 2/10

(30528322/SDS_GEN_US/EN)

May form combustible dust concentration in air.

Hazards not otherwise classified

Avoid dust development and deposition - dust explosion risk. Take precautionary measures against static discharges.

3. Composition / Information on Ingredients

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Soybean oil

CAS Number: 8001-22-7

Content (W/W): 5.0 - 10.0%

Synonym: No data available.

4. First-Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing.

If inhaled:

Fresh air.

If on skin:

After contact with skin, wash immediately with plenty of water and soap. If adverse health effects develop seek medical attention.

If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

If swallowed:

Rinse mouth and then drink 200-300 ml of water.

Most important symptoms and effects, both acute and delayed

Symptoms: No data available.

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media:

water spray, foam, carbon dioxide, dry powder

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 3/10

(30528322/SDS_GEN_US/EN)

Special hazards arising from the substance or mixture

Hazards during fire-fighting:

carbon oxides, harmful vapours

The substances/groups of substances mentioned can be released in case of fire. Dust explosion hazard.

Advice for fire-fighters

Protective equipment for fire-fighting:

Wear a self-contained breathing apparatus.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

Cool endangered containers with water-spray.

Dusty conditions may ignite explosively in the presence of an ignition source causing flash fire.

6. Accidental release measures

Further accidental release measures:

Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air). Avoid the formation and build-up of dust - danger of dust explosion. Dust in sufficient concentration can result in an explosive mixture in air. Handle to minimize dusting and eliminate open flame and other sources of ignition.

Personal precautions, protective equipment and emergency procedures

Use personal protective clothing. Information regarding personal protective measures, see section 8.

Avoid dust formation. Ensure adequate ventilation.

Environmental precautions

Do not discharge into drains/surface waters/groundwater.

Methods and material for containment and cleaning up

Pick up spilled material and containerize for recovery or disposal. Vacuum area or flush with water to remove residues. Nonsparking tools should be used.

7. Handling and Storage

Precautions for safe handling

Avoid the formation and build up of dust - danger of dust explosion.

Protection against fire and explosion:

Avoid dust formation. Dust in sufficient concentration can result in an explosive mixture in air. Handle to minimize dusting and eliminate open flame and other sources of ignition. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Refer to NFPA 654, Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids (2013 Edition) for safe handling.

Dust explosion class: Dust explosion class 1 (Kst-value >0 up to 200 bar m s⁻¹).

Conditions for safe storage, including any incompatibilities

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 4/10

(30528322/SDS_GEN_US/EN)

Suitable materials for containers: High density polyethylene (HDPE), Stove-lacquer 79/14/3 (Müller/CH)

Further information on storage conditions: Store protected against freezing. Keep container dry. Keep away from heat. Avoid direct sunlight.

8. Exposure Controls/Personal Protection

Components with occupational exposure limits

Soybean oil	OSHA PEL	PEL 5 mg/m3 Respirable fraction ; PEL 15 mg/m3 Total dust ; TWA value 15 mg/m3 Total dust ; TWA value 5 mg/m3 Respirable fraction ;
-------------	----------	---

Advice on system design:

It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use only appropriately classified electrical equipment and powered industrial trucks.

Personal protective equipment

Respiratory protection:

Wear a NIOSH-certified (or equivalent) respirator as necessary.

Hand protection:

Wear chemically impervious protective gloves.

Eye protection:

Wear safety goggles (chemical goggles) if there is potential for airborne dust exposures.

Body protection:

Body protection must be chosen based on level of activity and exposure.

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift. Store work clothing separately.

9. Physical and Chemical Properties

Form:	powder, fine
Odour:	mild, of vegetable oils
Odour threshold:	not determined
Colour:	cream
pH value:	insoluble
Melting point:	not determined
Freezing point:	not determined

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 5/10

(30528322/SDS_GEN_US/EN)

Information on: Tocopherols

Melting point: 2.5 - 3.5 °C (other)
(1,013 hPa)
Literature data.

Boiling point: not applicable
Flash point: not applicable, the product is a solid
Flammability: not highly flammable (other)
Lower explosion limit: For solids not relevant for classification and labelling.
Upper explosion limit: For solids not relevant for classification and labelling.
SADT: Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.
Vapour pressure: not applicable
Bulk density: 250 - 450 kg/m³
Vapour density: The product is a non-volatile solid.
Partitioning coefficient n-octanol/water (log Pow): not applicable for mixtures

Information on: Tocopherols

Partitioning coefficient n-octanol/water (log Pow): 12.18 (calculated)
(25 °C)

Thermal decomposition: No decomposition if stored and handled as prescribed/indicated.

Viscosity, dynamic: not applicable, the product is a solid

Viscosity, kinematic: No data available.

Solubility in water: dispersible

Solubility (qualitative): Moderate - (1 to 10 %)

Molar mass: No data available.

Evaporation rate: The product is a non-volatile solid.

10. Stability and Reactivity

Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals:

Corrosive effects to metal are not anticipated.

Oxidizing properties:

Based on its structural properties the product is not classified as oxidizing.

Dust explosivity characteristics:

Kst: 63 m.bar/s (VDI 2263)

Dust explosion class:

Dust explosion class 1 (Kst-value >0 up to 200 bar m s⁻¹) (St 1)

Minimum ignition energy:

The product is capable of dust explosion.

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 6/10

(30528322/SDS_GEN_US/EN)

Dust explosion hazard.

Conditions to avoid

Avoid light. Avoid heat. See SDS section 7 - Handling and storage.

Incompatible materials

atmospheric oxygen

Hazardous decomposition products

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition:

No decomposition if stored and handled as prescribed/indicated.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity/Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion. The product has not been tested. The statement has been derived from the properties of the individual components.

Oral

Information on: Tocopherols

Type of value: LD50

Species: rat

Value: > 15,000 mg/kg (OECD Guideline 401)

No mortality was observed.

Inhalation

No data available.

Dermal

No data available.

Assessment other acute effects

Based on available Data, the classification criteria are not met.

Irritation / corrosion

Assessment of irritating effects: Avoid contact with the skin, eyes and clothing. Inhalation of dust causes slight irritation of the respiratory tract. Prolonged exposure to the product can result in irritation of the skin and mucous membranes. The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Tocopherols

Assessment of irritating effects: Not irritating to eyes and skin.

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 7/10

(30528322/SDS_GEN_US/EN)

Sensitization

Assessment of sensitization: A sensitizing effect on particularly sensitive individuals cannot be excluded. The product has not been tested. The statement has been derived from the properties of the individual components.

Information on: Tocopherols

Assessment of sensitization:

No sensitizing effect.

Aspiration Hazard

No data available.

Chronic Toxicity/Effects

Repeated dose toxicity

Assessment of repeated dose toxicity: Based on available Data, the classification criteria are not met.

Information on: Tocopherols

Assessment of repeated dose toxicity: Based on available Data, the classification criteria are not met.

Genetic toxicity

Assessment of mutagenicity: Based on available Data, the classification criteria are not met.

Information on: Tocopherols

Assessment of mutagenicity: Based on available Data, the classification criteria are not met.

Carcinogenicity

Assessment of carcinogenicity: No data was available concerning carcinogenic activity.

Reproductive toxicity

Assessment of reproduction toxicity: Based on available Data, the classification criteria are not met.

Information on: Tocopherols

Assessment of reproduction toxicity: Based on available Data, the classification criteria are not met.

Teratogenicity

Assessment of teratogenicity: Based on available Data, the classification criteria are not met.

Information on: Tocopherols

Assessment of teratogenicity: Based on available Data, the classification criteria are not met.

Other Information

The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 8/10

(30528322/SDS_GEN_US/EN)

12. Ecological Information

Toxicity

Aquatic toxicity

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms. The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

Toxicity to fish

LC50 > 100 mg/l (DIN EN ISO 7346-2)

Aquatic invertebrates

Information on: Tocopherols

EC50 (48 h) > 23.53 mg/l, Daphnia magna (Screening (style of OECD 202), static)

Assessment of terrestrial toxicity

No data available.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms

OECD Guideline 209 EC0: > 100 mg/l

Information on: Tocopherols

DIN 38412 Part 27 (draft) aquatic

bacterium/EC10 (30 min): > 10,000 mg/l

The details of the toxic effect relate to the nominal concentration.

Persistence and degradability

Assessment biodegradation and elimination (H2O)

The product has not been tested. The statement has been derived from the properties of the individual components.

Elimination information

Not readily biodegradable (by OECD criteria).

Elimination information

Information on: Tocopherols

60 - 70 % BOD of the ThOD (56 d) (OECD 301F; ISO 9408; 92/69/EEC, C.4-D) (aerobic, activated sludge, domestic, non-adapted)

Bioaccumulative potential

Assessment bioaccumulation potential

Accumulation in organisms is not to be expected.

Safety Data Sheet

Covi-ox® T-30 P

Revision date: 2025/02/14

Version: 1.1

Page: 9/10

(30528322/SDS_GEN_US/EN)

The product has not been tested. The statement has been derived from the properties of the individual components.

Bioaccumulation potential

No data available.

Mobility in soil

Assessment transport between environmental compartments

Information on: Tocopherols

The substance will not evaporate into the atmosphere from the water surface.

Adsorption to solid soil phase is expected.

Additional information

Other ecotoxicological advice:

The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. Disposal considerations

Waste disposal of substance:

Must be dumped in accordance with local regulations. This product, if disposed as shipped, is not a hazardous waste as specified in 40 CFR 261.

Container disposal:

Uncontaminated packaging can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.

14. Transport Information

Land transport

USDOT

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Registration status:
