

SAFETY DATA SHEET

1. Identification of the substance and of the supplier

Product identifiers

Product name : Black MB
Product code : MVBK 13124

Relevant identified uses of the substance or mixture and uses advised against

Identified uses : For general plastic industries. Keep away from flame.

Details of the supplier of the safety data sheet

Company : Salee Colour Public Co., Ltd
: 858 Moo 2, Soi 1C/1, BangPu Industrial Estate,
Bangpumai, Muang Samutprakarn, Samutprakarn 10280,
Thailand
Telephone : (662) 323-2601-8

2. Hazards Identification

Classification of the substance or mixture

Not Classified

Label elements : None

Signal word : None

Hazard statement : None

Precautionary statement(s)

Prevention : Avoid breathing dust/fume. Wear personal protective equipment.

Response : Wash hands thoroughly after handling. Do not eat, drink or smoke during use.

Storage : Do not eat, drink or smoke during use.
: Keep away from heat, flame, sparks, moisture, sunlight and incompatible materials. Keep container tightly closed.

First Aid : Keep container tightly closed
: If on skin: Wash with plenty of soap and water
: If in eye: Rinse cautiously with water for several minutes.

Hazards not otherwise classified : This product is in a pellet form, and the Carbon Black is fully encapsulated within the polymer matrix. Under normal conditions of use, the Carbon Black is not available for inhalation. An inhalation hazard only exists if the product is ground or sanded into dust

3. Composition/ Information on Ingredients

No.	Ingredient	CAS No.	Content (%)
1	Resin	9002-86-2	85-90
2	Carbon Black	1333-86-4	1-5
3	Other	1317-65-3	5-10

4. First Aid Measures

Description of first aid measures

Inhalation : Move to fresh air. If breathing is difficult, give oxygen. Get medical attention immediately if symptoms occur.

Skin contact : Wash with soap and water. If contact with molten material occurs, cool rapidly with cold water. Do not attempt to peel the plastic from the skin. Seek medical attention.

Eye contact : Immediately flush with large amounts of water for at least 15 minutes. Remove contact lenses if easy to do. Continue rinsing. Get medical attention.

Ingestion : Rinse mouth with water. Seek medical attention if symptoms occur.

Most important symptoms and effects, both acute and delayed

Skin, eye and respiratory irritation

Indication of any immediate medical attention and special treatment needed

Treat symptomatically

5. Fire Fighting Measures**Extinguishing media**

Water spray, Dry chemical, CO₂, or Foam.

Suitable extinguishing media:

In case of fire: Use a fire fighting agent suitable for ordinary combustible material to extinguish.

Unsuitable extinguishing media:

Do not use a heavy water stream.

Special hazards arising from the substance or mixture

Carbon oxides (CO, CO₂) may be released during combustion.

Special protective equipment and precautions for fire-fighters

Self-contained breathing apparatus (SCBA).

6. Accidental Release Measure**Personal precautions, protective equipment and emergency procedures**

Beware of slipping hazard. Use personal protective equipment: Mask, safety shoes and gloves.

Environmental precautions

Prevent entry to sewers and public waters. Notify authorities if pellets enters sewers or public waters.

Methods and materials for containment and cleaning up

Wear gloves and safety shoes. Sweep up spillage and collect in a sealed container for disposal.

7. Handling and Storage**Precautions for safe handling**

Avoid dust formation. Use only in a well-ventilated area. Wear protective gear such as goggles, gloves, travel protection devices, particle filters. Eyes, respiratory and skin.

Conditions for safe storage, including any incompatibilities

Keep container tightly closed and away from heat, sparks and incompatible materials. Store in cool, dry well-ventilation place. Protect from sunlight.

8. Exposure Controls/ Personal Protection**Control parameters**

Components	CAS No.	OSH (PEL)	NIOSH (REL)	ACGIH (TLV)
Carbon Black	1333-86-4	TWA 3.5 mg/m ³	TWA 3.5 mg/m ³	TWA 3.5 mg/m ³

Appropriate engineering controls

: Use general dilution ventilation and/or local exhaust ventilation to control airborne exposures to below relevant exposure limits.

Personal protective equipment

Respiratory protection

: Dust mask (N95) if dust occurs.

Eye protection

: Safety glasses with side shields.

Hand Protection

: Protective gloves (Heat resistant for molten material).

Skin protection

: Wear suitable protective clothing/uniform.

Work/ Hygienic Practices:

: Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/ or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Do not eat, drink or smoke during use.

9. Physical and Chemical Properties

1. Appearance	: Black Pellets (Solid)
2. Odour	: Specific odour
3. Odour Threshold	: Not Applicable
4. pH	: Not Applicable
5. Melting point/freezing point	: 105 °C – 135 °C
6. Initial boiling point and boiling range	: Not Applicable
7. Flash point	: >350 °C
8. Evaporation rate	: Not Applicable
9. Flammability (solid, gas)	: No data available
10. Upper/lower flammability or explosive limits	: No data available
11. Vapour pressure	: No data available
12. Vapour density	: No data available
13. Relative density	: 1.25
14. Water solubility	: Not soluble
15. Partition coefficient: octanol/water log Pow	: No data available
16. Auto ignition temperature	: 450 °C
17. Decomposition temperature	: >300 °C
18. Viscosity	: Not Applicable

10. Stability and Reactivity

Reactivity	: Not reactive under normal conditions of use and storage.
Chemical stability	: Stable under recommended storage conditions.
Possibility of hazardous reactions	: Will not occur. No hazardous polymerization.
Conditions to avoid	: Avoid heating above decomposition temperature (>350°C). Avoid open flames, sparks, and prolonged exposure to high heat.
Incompatible materials	: Strong bases (alkalis), strong acids, and aromatic hydrocarbons/solvents.
Hazardous decomposition products	: Carbon monoxide (CO) and Carbon dioxide (CO ₂).

11. Toxicological Information

Information on the likely routes of exposure

Inhalation	: Slightly cause nose and throat irritation.
Skin contact	: Slightly cause skin irritation.
Eye contact	: Slightly cause eyes irritation.
Ingestion	: Cause stomach irritation.

Symptoms related to the physical, chemical and toxicological characteristics;

May cause redness eye and rash skin

Delayed and immediate effects and also chronic effects from short and long term exposure;

Immediate effects	: Irritation to respiratory, skin and eye
Chronic effects	: Respiratory effect

Numerical measures of toxicity

Classification of Health Hazards

SaleeColour

Acute toxicity estimate	: Not classified
Skin corrosion / irritation	: No components expected to cause skin corrosion / irritation
Serious eye damage/eye irritation	: No components expected to cause serious eye damage/eye irritation
Respiratory or skin sensitization	: No components expected to cause respiratory or skin sensitization.
Germ cell mutagenicity	: No components expected to cause mutagenic effect.
Carcinogenicity	: No components expected to cause cancer. "Carbon Black is bound within the polymer matrix and is not expected to be inhalable under normal conditions of use."
Reproductive toxicity	: No components expected to cause reproductive effect.
Specific target organ toxicity - single exposure	: No components expected to cause specific target organ toxicity - single exposure.
Specific target organ toxicity - repeated exposure	: No components expected to cause specific target organ toxicity - repeated exposure.
Aspiration hazard	: Not Applicable.

12. Ecological Information

Eco toxicity	
Acute aquatic toxicity	: No data available
Long term aquatic toxicity	: No data available
Persistence and degradability	: No data available
Bio accumulative potential	: No data available
Mobility in soil	: Low mobility in soil. The product is insoluble in water.
Other adverse effects	: No data available

13. Disposal Considerations

Waste treatment methods	: Dispose in a safe manner in accordance with local/national regulations.
Contaminated packaging	: Dispose in a safe manner in accordance with local/national regulations.

14. Transport Information

UN number	: Not regulated
UN proper shipping name	: Not regulated
Transport hazard class (es)	: Not applicable
Packaging group	: No data available
Environmental hazards	: No data available
Transport in bulk	: No data available
Special precautions for user	: No data available

15. Regulatory Information**Thailand:**

- This product is classified according to the Notification of the Ministry of Industry regarding the System of Hazard Classification and Communication of Hazardous Substances B.E. 2555 (GHS).
- None of the ingredients are listed in the Notification of the Ministry of Industry on Hazardous Substance List B.E. 2556.

United States:

- **OSHA (29 CFR 1910.1200):** This product is **not classified as hazardous** under the OSHA Hazard Communication Standard.

European Union:

- **Regulation (EC) No 1272/2008 (CLP):** This mixture is **not classified as hazardous** according to the Globally Harmonized System of Classification and Labelling of Chemicals (GHS) and its implementation into EU legislation.
