

SAFETY DATA SHEET (SDS)

Product Name: Niacin
Date Prepared: Dec 18, 2025

Operation number : 202505117

Inspection number : 202504435

Section 1 - Product and Company Identification

Product name Niacin
Applicant name MIANYANG VANETTA PHARMACEUTICAL TECHNOLOGY CO.,LTD
Application address Xintian Village, Xiushui Town, Anzhou District, Mianyang City, Sichuan Province, China
Applicant post code 622656
Applicant fax +86-816-2242888
Applicant emergency number +86-816-4672919
Applicant email leiwen@yhcc.com
Manufacturer name MIANYANG VANETTA PHARMACEUTICAL TECHNOLOGY CO.,LTD
Manufacturer address Xintian Village, Xiushui Town, Anzhou District, Mianyang City, Sichuan Province, China
Manufacturer post code 622656
Manufacturer fax +86-816-2242888
Manufacturer emergency number +86-816-4672919
Recommended and restricted USES As an essential component in complete feed and feed additives

Section 2 –Hazards Identification

Hazard class and label elements of the substance according to GHS (the tenth revised edition):

GHS hazard class

Health hazards Serious eye damage/eye irritation

Category 2

Pictogram

Signal Warning

Hazard statements H319 Causes serious eye irritation

Prevention P264+P265 Wash hands thoroughly after handling. Do not touch eyes.

P280 Wear protective eye protection/face protection.

Response P305 + P354 + P338 IF IN EYES: Immediately rinse with water for several minutes.

Remove contact lenses, if present and easy to do. Continue rinsing.

P337 + P317 If eye irritation persists: Get medical help.

Storage

Disposal P501 Dispose of contents/container in accordance with local/regional/ national / international regulations.

Section 3 – Composition/Information on Ingredients

Component	Concentration (%)	CAS No.	EC No.
Niacin	≥99	59-67-6	200-441-0

SAFETY DATA SHEET (SDS)

Product Name: Niacin

Date Prepared: Dec 18, 2025

Section 4 – First Aid Measures

After skin contact	Remove contaminated clothing and shoes immediately. Rinse with soap and plenty of water. Consult a doctor.
After eye contact	Rinse thoroughly with plenty of water for at least 15 minutes, including under the eyelids. Consult a doctor.
After ingestion	Do not feed anything from the mouth to an unconscious person. Gargle with water. Consult a doctor.
After inhalation	If inhaled, remove the patient to fresh air. If breathing stops, give artificial respiration. Consult a doctor.

Section 5 – Fire Fighting Measures

Hazardous products of combustion	Carbon oxides, nitrogen oxides.
Extinguishing method	Use water mist, alcohol-resistant foam, dry powder or carbon dioxide to extinguish fire.
Special protective equipment	Wear full-body protective clothing and self-contained breathing apparatus when working.

Section 6 – Accidental Release Measure

Personal protective measures	Use personal protective equipment. Avoid contact with skin and eyes. Ensure adequate ventilation. Evacuate the personnel to a safe area.
Environmental protective measures	Under the premise of ensuring safety, take measures to prevent further leakage or overflow. Do not let the product go down the drain.
Methods for taking in and cleaning up	Sweep and shovel away. Do not generate dust during collection and disposal. Put it in an appropriate sealed container and dispose of it as chemical waste.

Section 7 – Handling and Storage

Safe handling	Wear personal protective equipment/protective masks. Beware of getting into your eyes, coming into contact with your skin or clothes. Avoid generating dust and aerosols. Ensure adequate ventilation. In places where dust is generated, provide appropriate exhaust equipment.
Storage	Store in a cool place. Keep the container tightly sealed and store it in a dry and well-ventilated place.

Section 8 – Exposure Controls/Personal Protection

Engineering Controls	Operate in accordance with good industrial hygiene and safety practices. Wash hands before breaks and at the end of work. Use only in chemical exhaust hood. Ensure adequate ventilation, especially in closed areas. Make sure the eyewash and shower are close to the workplace. Where possible, engineering control measures such as process isolation or closure, the introduction of process or equipment changes to minimize the possibility of release or contact, and the adoption of properly designed ventilation systems shall be used to control hazardous material
-----------------------------	---

SAFETY DATA SHEET (SDS)

Product Name: Niacin

Date Prepared: Dec 18, 2025

Respiratory protection

sources.

Wear a gas mask or respiratory protection.

Hand Protection

Please wear appropriate protective gloves. Gloves must be inspected before use. Remove the gloves using appropriate methods (do not touch the outer surface of the gloves) to avoid contact with this product on any skin area. Dispose of contaminated gloves carefully after use in accordance with relevant laws and regulations and effective laboratory procedures. Please wash and dry your hands.

Eye protection

Wear chemical safety goggles.

Skin and body protection

Wear a full set of chemical-resistant work clothes. The type of protective equipment must be selected based on the concentration and quantity of hazardous substances in the specific workplace.

Section 9 – Physical and Chemical Properties

Physical state: Powder

Color: White

Odor: No data available

pH value: 3.4

Melting point/freezing point(°C): 236.6

Initial boiling point and boiling range(°C): No data available

Flash point(°C)(closed cup): No data available

Flammability: No data available

Upper explosive limit%(V/V): No data available

Lower explosive limit%(V/V): No data available

Vapor pressure (MPa): No data available

Vapor density (g/mL): No data available

Relative density(g/cm³): 1.473@ 25 °C

Solubility: No data available

Octanol / water partition coefficient: No data available

Kinematic viscosity (mm²/s): No data available

Auto-ignition temperature(°C): No data available

Decomposition temperature(°C): No data available

Particle characteristics: No data available

Section 10 – Stability and Reactivity

Reactive

No data available.

Chemical stability

Stable under recommended storage conditions.

Possibility of hazardous reactions

It may react vigorously with: oxidants, alkalis, acids.

Avoid conditions

Strong heating.

Incompatible materials

No data available.

Hazardous decomposition products

Carbon oxides, nitrogen oxides.

Section 11 – Toxicological Information

Acute toxicity: No data available.

Skin corrosion/irritation: No data available.

Serious eye damage/eye irritation: Causes serious eye irritation.

Respiratory or skin sensitization: No data available.

Germ cell mutagenicity: No data available.

Carcinogenicity: No data available.

Reproductive toxicity: No data available.

Specific target organ toxicity – single exposure: No data available.

Specific target organ toxicity – repeated exposure: No data available.

SAFETY DATA SHEET (SDS)

Product Name: Niacin

Date Prepared: Dec 18, 2025

Aspiration hazard: No data available.

Section 12 – Ecological Information

Toxicity: No data available.

Persistence and degradability: No data available.

Bioaccumulative potential: No data available.

Mobility in soil: No data available.

Other adverse effects: No data available.

Section 13 – Disposal Considerations

Property of waste: No data available.

Methods of disposal: National and local regulations should be consulted before disposal. Contact with a qualified waste disposal agency for disposal.

Precautions of disposal: Contact professional waste disposal department to deal with waste.

Section 14 - Transport Information

UN number: —

UN proper shipping name: —

Transportation primary hazard class: Not subject to the recommendations on the Transport of Dangerous Goods Model Regulations.

Transportation secondary hazard class: —

Packing group: —

Hazard labeling: —

Special precautions relating to transport or means of transport: The packing should be complete and the loading should be safe. During transportation, the container shall not leak, collapse, fall or be damaged. Transport vehicles and vessels must be thoroughly cleaned and disinfected, otherwise other articles may not be carried.

Section 15 - Regulatory Information

Component	CHINA	TSCA	NZIoC	EINECS
Niacin	-	√	√	√

Note 1:

CHINA - Catalog of Hazardous Chemicals (2015)

TSCA - United States Inventory of Toxic Substances Control Act Chemical Substances (TSCA)

NZIoC -New Zealand Inventory of Chemicals (NZIoC)

EINECS - European Inventory of Existing Commercial Chemical Substances (EINECS)

Note 2:

"√" Indicates that the substance included in the regulations

"-" That no data or included in the regulations

Section 16 - Additional Information

Completion Date: Dec 18, 2025

Modification statement: Please update before the implementation of the GHS Eleventh revised edition.

SAFETY DATA SHEET (SDS)

Product Name: Niacin

Date Prepared: Dec 18, 2025

Other information: This Safety Data Sheet (SDS) was prepared according to UN GHS (the tenth revised edition) and the information included is based on the present state of our knowledge. However, the information is provided without any warranty, express or implied, regarding its correctness and is only for users reference. Users should make their independent judgement of suitability of these information for their particular purposes. We do not assume responsibility for loss, damage or expense arising out of or in any way connected with the handling, storage, use or disposal of the product.
