MSDS(MATERIAL SAFETY DATA SHEET)

1. Product Identification

Product name: (+) **D-Biotin; Vitamin H 99% Feed Grade**

Synonyms: Hexahydro-2-oxo-1H-thieno [3,4-d] imidazole-4-pentanoic acid;

Molecular Weight: 244,31

Chemical Formula: $C_{10}H_{16}N_2O_3S$

2. Composition and information on ingredients

Ingredient	CAS No	Percent
D-Biotin	58-85-5	100%

3. Hazard identification

As part of good industrial and personal hygiene and safety procedure, avoid all unnecessary cassexposure to the chemical substance and ensure prompt removal from skin, eyes and clothing.

Inhalation:

No adverse health effects expected from inhalation.

Ingestion:

Large doses may cause gastro-intestinal upset.

Skin Contact:

No adverse effects expected.

Eye Contact:

No adverse effects expected.

Chronic Exposure:

No information found.

Aggravation of Pre-existing Conditions:

No information found.

4. First-aid measures

Inhalation:

Not expected to require first aid measures. Remove to fresh air. Get medical attention for any breathing difficulty.

Ingestion:

If large amounts were swallowed, give water to drink and get medical advice.

Skin Contact:

Wash exposed area with soap and water. Get medical advice if irritation develops.

Eye Contact:

Wash thoroughly with running water. Get medical advice if irritation develops.

5. Fire-fighting measures

Fire:

As with most organic solids, fire is possible at elevated temperatures or by contact with an ignition source.

Explosion:

Fine dust dispersed in air in sufficient concentrations, and in the presence of an ignition source is a potential dust explosion hazard.

Fire Extinguishing Media:

Water spray, dry chemical, alcohol foam, or carbon dioxide.

6. Accidental release measures

Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Sweep up and containerize for reclamation or disposal. Vacuuming or wet sweeping may be used to avoid dust dispersal. Remove all sources of ignition. Ventilate area of leak or spill. Wear appropriate personal protective equipment as specified in Section 8. Spills: Clean up spills in a manner that does not disperse dust into the air. Use non-sparking tools and equipment. Reduce airborne dust and prevent scattering by moistening with water. Pick up spill for recovery or disposal and place in a closed container.

7. Handling and storage

Keep in a tightly closed container, stored in a cool, dry, ventilated area. Protect against physical damage. Containers of this material may be hazardous when empty since they retain product residues (dust, solids); observe all warnings and precautions listed for the product.

8. Exposure controls/Personal protection

Personal protective equipment Respiratory protection:

Half-mask. Hand protection: impervious gloves Eye

protection: safety glasses

Skin and body protection: protective suit

Hygiene measures

When using, do not eat, drink or smoke. Remove and wash contaminated clothing before re-use.

Ensure adequate ventilation, especially in confined areas.

9. Physical and chemical **properties**

Appearance	White crystalline powder or colorless crystal
Molecular Weight	244,31
Water solubility	Slightly soluble.
Solubility in other solvents	Insoluble
Loss on drying	$\leq 0.5\%$
Heavy metal	$\leq 10\text{ppm}$
Specific Rotation	$+89^{\circ} - +93^{\circ}$

10. Stability and **reactivity**

Stability: Stable at normal conditions

Conditions to avoid: Risk of ignition of dust cloud.

Materials to avoid: oxidising agents .

Hazardous decomposition products

Thermal decomposition can lead to release of irritating gases and vapours.

(Carbon monoxide, Nitrogen oxides, sulphur oxides).

11. Toxicological **information**

Acute toxicity

Eye contact no data available

Skin contact no data available

Inhalation no data available

Chronic toxicity

carcinogenic effects no data available

mutagenic effects no data available

toxic effects for reproduction no data available

12. Ecological **information**

Mobility	Slightly soluble product, readily forms deposits.
Expected behaviour of the product	Soil
Biological degradability	According to the results tests of biodegradability, this product is considered as being readily biodegradable.
Ecotoxicity effects	No data available

13. Disposal considerations

Whatever cannot be saved for recovery or recycling should be managed in an appropriate and approved waste disposal facility. Processing, use or contamination of this product may change the waste management options. State and local disposal regulations may differ from federal disposal regulations. Dispose of container and unused contents in accordance with federal, state and local requirements.

14. Transport information

Land transport

Class not regulated

Sea transport

Class not regulated

Air transport

Class not regulated

The regulatory information given above only indicates the principal regulations specifically applicable to the product described in the Safety Data Sheet. The user's attention is drawn to the possible existence of additional provisions, which complete these regulations. Refer to all applicable national, international and local regulations or provisions.

15. Regulatory information

All information, recommendations and suggestions appearing herein are based upon sources believed to be reliable. However, it is the users' responsibility to determine the safety, toxicity, and suitability for its own use of the product. ANHUI TIGER BIOTECH CO., LTD DOES NOT ASSUME ANY LIABILITY ARISING OUT OF THE USE BY OTHERS OF THIS PRODUCT.

16. Other information

IMPORTANT:

The information contained herein is furnished without warranty of any kind. Users should consider these data only as a supplement to other information gathered by them and must make independent determinations of suitability and completeness of information from all sources to assure proper use and disposal of these materials and the safety and health of employees and customers and the protection of the environment.
