

Material Safety Data Sheet

Section 1: Chemical Product and Company Identification

Product Name: MIACID BSB1075 Calcium propionate **Catalog:** Feed Additive

Synonyms: None **Company Identification:** Nuacid Nutrition Co., Ltd.

For Information Call: 0763-3983888 (Monday-Friday, 8:30am-5:30pm)

For Emergencies Call: 0763-3983888

Section 2 - Composition, Information on Ingredients

Chemical Characterization: Preparation

Composition:

Substance	CAS#	Amount %
Calcium propionate	4075-81-4	>98%
Silicon dioxide	7631-86-9	>2%

Section 3: Hazards Identification

Emergency Overview: It belongs to feed additives, and has no harm to human and animals.

Potential Health Effects and Symptoms: None

Eye: may cause irritation

Skin: irritation or sensitization would be expected.

Ingestion: May cause slightly nausea.

Inhalation: Safety

Chronic Effects: Safety

Section 4: First Aid Measures

Eyes: Immediately flush with gentle flowing water

Skin: Wash off with plenty of water and soap or mild detergent

Ingestion: abnormal ingestion is not likely happened under normal use conditions. If ingested,

Rinse mouth with water.

Inhalation: If breathed in, move person into fresh air. If not breathing, give artificial respiration and ask for emergency medical services immediately.

Notes to Physician: None

Section 5 - Fire Fighting Measures

Flammability: There is no fire caused by the product when stored in the normal conditions.

Suitable Extinguishing Media: CO₂, water, foam or dry chemicals

Special Fire Fighting Procedures: None

Unusual Fire and Explosion Hazards: None

Section 6: Accidental Release Measures

Environmental Precautions: Do not release to environment. Keep the product out of water sources and sewers.

Method for Cleaning Up: Sweep out with broom.

Section 7: Handling and Storage

Handling: For animals feed. Handling in places with adequate ventilation

Storage: Dry and avoided sunlight and high temperature

Section 8: Exposure Controls, Personal Protection

Exposure Guidelines: Not established for this acidifier.

Engineering Controls: Use adequate ventilation

Personal Protective Equipment(s): Not required

Respiratory protection: Dust respirator

Eye/Face Protection: If dust in-eye risk exists, use face shield and safety glasses.

Skin Protection: Handle with rubber or plastic gloves.

Section 9: Physical and Chemical Properties

Physical State: free-flowing powder

Color: white

Odor: Special acid smell

Viscosity: Not available

Vapor Pressure: Not available

Vapor Density: Not available

Freezing/Melting Point: Not available

Boiling Point: Not available

Density: Not available

Evaporation Rate & Reference: Not available

Solubility in Water: Partly soluble

Explosion Limits in Air-Upper : Not available

Explosion Limits in Air- lower: Not available

Flash Point: Not Available

Percent Volatility: Not available

pH: Not Available

Section 10: Stability and Reactivity

Stability: stable under normal ambient storage conditions

Incompatibility (Materials to Avoid): Avoid contact with strong oxidizing agents, strong base.

Conditions to Avoid: humidity and high temperature.

Combustion Products: Other decomposition products-no data available.

Hazardous Reactions: Does not react with air, water or other common materials.

Hazardous Polymerization: Will not occur.

Section 11: Toxicological Information

Germ Cell Mutagenicity: Based on available data, the classification criteria are not met.

Carcinogenicity: None of the components of this product is listed as a carcinogen by IARC, NTP, US OSHA or the European Directive (67/548/EEC).

Reproductive Toxicity: Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Single Exposure (Globally Harmonized System): Based on available data, the classification criteria are not met.

Specific Target Organ Toxicity - Repeated Exposure (Globally Harmonized System): Based on available data, the classification criteria are not met.

Aspiration Hazard: Based on available data, the classification criteria are not met.

Potential Acute Health Effects

Eyes: Direct contact with eyes cause eye irritation.

Skin: May causes severe skin irritation .

Inhalation:May cause respiratory irritation.

Ingestion: Not available.

Section 12: Ecological Information

Mobility: No data available.

Persistence/Degradability: Readily biodegradable

Bioaccumulation: Not available

Environmental Adverse Effects: No data available

Other Adverse Effects: Not available

Ecotoxicity: May be harmful to aquatic environment.

Section 13: Disposal Considerations

Waste Disposal Methods: Do not dump into any sewers, on the ground or into any body of water.

Offer surplus product to a licensed disposal company. Observe according to the national and local related regulations.

Section 14: Transport Information

UN Number: No data available if packed and stored well.

UN proper shipping name: None

Transport hazard class(es): None

Environmental hazards: No

Special precautions for user: No information available

Section 15: Regulatory Information

EU Regulations

Classification according to Regulation (EC) 1272/2008 (CLP):

Classification: Skin irritation (Category 3), H316

US Regulations

TSCA: All of components are listed on the TSCA inventory.

OSHA: None of the components in this product are considered highly hazardous by OSHA.

Canadian Regulations

DSL /NDSL Status: All components of this product are on the Canadian DSL list.

Section 16: Other Information

Abbreviations: pH - Relates to hydrogen ion concentration - this value will relate to a scale of 0 - 14, where 0 is highly acidic and 14 is highly alkaline

OSHA- Occupational Safety and Health

Administration NTP – National Toxicology Program

IARC- International Agency for Research on Cancer

CAS# - Chemical Abstract Service number - used to uniquely identify chemical compounds
