

Roseco BTJ S2F

1. Product Identification

Product name	Roseco BTJ S2F
Chemical name	A biobased PP thermoplastic starch compound resin
CAS number	-
Recommended use	Injection
Company	THAI WAH PUBLIC COMPANY LIMITED 21/11, 21/13 Thai Wah Tower I, 6 th Floor, South Sathorn Road, Tungmahamek, Sathorn, Bangkok 10120, Thailand Tel. +66 2285-0040, Fax. +66 2285-0270 email: roseco@thaiwah.com Corporate Registration No: 0107558000423 Corporate Website: www.thaiwah.com

2. Hazards Identification

GHS classification and label elements

Signal Word(s)	Not applicable
Symbol(s)	Not applicable
Hazard Statement(s)	Not applicable

Other Hazard(s)

Inhalation	Low order or toxicity
Skin Contact	Causes skin irritation only when hot.
Eye Contact	May cause slight mechanical irritation.
Ingestion	No effect known or anticipated.

3. Composition/Information of Ingredients

Chemical name	A biobased PP thermoplastic starch compound resin
Starch (9005-25-8)	May form combustible dust concentrations in air
Polypropylene	Nonhazardous

4. First Aid Measures

Aspiration contact	Sufficient ventilation with fresh air.
Skin contact	Rinse with water.
Eye contact	Immediately and thoroughly flush eyes with liberal amounts of cool water for at least 15 minutes and seek immediate medical attention.
Oral ingestion	No adverse effects to ingestion are expected.

5. Fire-fighting measures

Extinguishing Media

Suitable Extinguishing Media	Use water, carbon dioxide or dry chemical powder.
Unsuitable Extinguishing Media	None
Fire Fighting Measures	Move product out of the fire area. And do not breath of the product.
Special Protective Equipment and Precautions for Firefighters	Use self-contained breathing apparatus and protective cloth.

6. Accidental release measures

Personal Protective Equipment	After spillage collect mechanically, avoid contact with skin.
Environmental Precautions	Prevent further leakage or spillage if safe to do so. No special environmental precautions required.
Methods for Cleaning	Collect in dry state for normally disposal.

7. Handling and storage

Precautions for Safe Handling

Safety information	Avoid dusting conditions
Protection against fire	Keep away from sources of ignition – No smoking
Dust explosion	Possible

Conditions for Safe Storage, Including any Incompatibilities

Technical protective measures	Keep container tightly closed and dry, protected against extreme weather conditions.
Storage class	None
Storage condition	Store the product in a cool dry place and well-closed bags. Do not store or ship together with odorous or toxic substance free from insects and rodents.

8. Exposure controls/personal protection

Information for protective equipment	Product should be handled dust free with suction from vessel.
--------------------------------------	---

Personal protective equipment

Industrial hygiene	No further information
Respiration protection	Do not breathe dust
Hand protection	None
Eye protection	None
Skin and Body protection	None
Glove protection	None

9. Physical and chemical properties

Appearance	White light brown pellet
Odor	Bland

Oder threshold	Not available
Boiling point, °C	Not available
Melting point, °C	Not available
Flash point, °C	Not available
Auto Ignition temp., °C	Not available
Decomposition temp., °C	Not available
Evaporation rate	Not available
Lower explosive limit	Not available
Upper explosive limit	Not available
Vapor density (air=1)	Not available
Water solubility	Not available
Density	Not available
Physical state	Solid
Color	Pale brown
Flash point, °C	Not available
Freezing point, °C	Not available

10. Stability and reactivity

Chemical stability	Stable
Incompatibility with other substances	None
Hazardous decomposition products	This product does not undergo spontaneous decomposition.

11. Toxicological information

Skin Contact	No hazard
Aspiration	No hazard
Eye damage	No hazard
Ingestion	Low order of toxicity

Acute and Chronic Toxicity

Component Analysis - LD50/LC50	The components of this material have been reviewed in various sources and no selected endpoints have been identified.
Immediate Effects	No data
Delayed Effects	No data
Irritation/Corrosivity Data	No data
Respiratory Sensitization	No data
Dermal Sensitization	No data
Carcinogenicity	None of this product's components are listed by ACGIH, IARC, NTP, DFG or OSHA
Germ Cell Mutagenicity	No data
Reproductive Toxicity	No data
Specific Target Organ Toxicity - Single Exposure	No data
Specific Target Organ Toxicity - Repeated Exposure	No data

Aspiration hazard	No data
Medical Conditions Aggravated by Exposure	No data

12. Ecological information

Ecotoxicity	Solutions of product give high COD/BOD value.
Component Analysis - Aquatic Toxicity	Not available
Persistence and Degradability	Degradable
Mobility and bioaccumulation	No mobility in the ground

13. Disposal considerations

Disposal Methods	Disposed in landfill or authorized incineration facilities.
Component Waste Numbers	The U.S. EPA has not published waste numbers for this product's components.

14. Transport information

US DOT Information	Additional information: This product is not classified as dangerous goods.
TDG Information	Additional information: This product is not classified as dangerous goods.

15. Regulatory information

Risk phrase	Nonhazardous
Safety phrase	Nonhazardous

16. Further information

These SDS summaries to our best knowledge at the date of issue. Since we Thai Wah Public Company Limited cannot anticipate or control the conditions under which the product may be used, each user must, prior to usage, assess and control the risks arising from its use of the material. Each user needs to handle this material under normal condition of use, storage and handling. Each User needs to evaluate the conditions of use and design the appropriate protective mechanisms to prevent worker.
