Methods and material for containment and cleaning up

Methods for containment In case of small spill, absorb the spill in dry sand, soil or cloth and keep in closed container. In case of large spill, surround the spill by bank to prevent from leakage, and collect the spill after it is moved to safety place.

Methods for cleaning up Take up mechanically, placing in appropriate containers for disposal

Prevention of secondary hazards Keep ignition source away from spill.

Section 7: HANDLING AND STORAGE**Precautions for safe handling**

Advice on safe handling Take equipment measures listed in Section 8. Wear protection gear.

Conditions for safe storage, including any incompatibilities

Storage conditions Close lid. Avoid direct sun light and ignition source. Keep appropriate temperature.
