

Safety Data Sheet

Kolliwax® GMS II

Revision date : 2025/09/23

Version: 5.0

Page: 1/11

(30554444/SDS_GEN_US/EN)

1. Identification

Product identifier used on the label

Kolliwax® GMS II

Recommended use of the chemical and restriction on use

Recommended use*: pharmaceutical excipient

* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Details of the supplier of the safety data sheet

Company:

BASF CORPORATION
100 Park Avenue
Florham Park, NJ 07932, USA

Telephone: +1 973 245-6000

Emergency telephone number

24 Hour Emergency Response Information

CHEMTREC: 1-800-424-9300

BASF HOTLINE: 1-800-832-HELP (4357)

Other means of identification

Synonyms: Glycerides, C16-18 mono- and di-

2. Hazards Identification

According to Regulation 2024 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Classification of the product

Combustible Dust

Combustible Dust (1)

Combustible Dust

Label elements

Signal Word:

Warning

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 2/11

(30554444/SDS_GEN_US/EN)

Hazard Statement:

May form combustible dust concentration in air.

Hazards not otherwise classified

The product is under certain conditions capable of dust explosion.

3. Composition / Information on Ingredients

According to Regulation 2024 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

glycerol

CAS Number: 56-81-5

Content (W/W): 0.5 - 5.0%

Synonym: 1,2,3-Propanetriol; Glycerol

The actual concentration is withheld as a trade secret.

4. First-Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

If on skin:

Wash thoroughly with soap and water

If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

If swallowed:

Rinse mouth and then drink 200-300 ml of water.

Most important symptoms and effects, both acute and delayed

Information on: glycerol

Symptoms: Overexposure may cause:, vomiting, nausea, diarrhea, headache, dizziness

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment:

Symptomatic treatment (decontamination, vital functions).

Safety Data Sheet

Kolliwax® GMS II

Version: 5.0

Page: 3/11
(30554444/SDS_GEN_US/EN)

5. Fire-Fighting Measures

Extinguishing media

Suitable extinguishing media:
carbon dioxide, foam, dry powder, water spray

Additional information:
Avoid whirling up the material/product because of the danger of dust explosion.

Special hazards arising from the substance or mixture

Hazards during fire-fighting:
carbon oxides, harmful vapours
The substances/groups of substances mentioned can be released in case of fire. Dust explosion hazard.

Advice for fire-fighters

Protective equipment for fire-fighting:
Wear a self-contained breathing apparatus.

Further information:

Dispose of fire debris and contaminated extinguishing water in accordance with official regulations. If exposed to fire, keep containers cool by spraying with water.

Dusty conditions may ignite explosively in the presence of an ignition source causing flash fire.

6. Accidental release measures

Further accidental release measures:

Avoid dispersal of dust in the air (e.g. by clearing dusty surfaces with compressed air). Avoid the formation and build-up of dust - danger of dust explosion. Dust in sufficient concentration can result in an explosive mixture in air. Handle to minimize dusting and eliminate open flame and other sources of ignition.

Personal precautions, protective equipment and emergency procedures

Use personal protective clothing. Information regarding personal protective measures, see section 8. Avoid dust formation.

Do not breathe dust.

Environmental precautions

Do not discharge into drains/surface waters/groundwater.

Methods and material for containment and cleaning up

Pick up spilled material and containerize for recovery or disposal. Vacuum area or flush with water to remove residues. Nonsparking tools should be used.

For small amounts: Pick up with suitable appliance and dispose of.

For large amounts: Sweep/shovel up.

Avoid raising dust. Dispose of absorbed material in accordance with regulations.

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 4/11

(30554444/SDS_GEN_US/EN)

7. Handling and Storage

Precautions for safe handling

Avoid dust formation. Provide exhaust ventilation if dust is formed.

Avoid inhalation of dusts.

Protection against fire and explosion:

Dust in sufficient concentration can result in an explosive mixture in air. Handle to minimize dusting and eliminate open flame and other sources of ignition. Routine housekeeping should be instituted to ensure that dusts do not accumulate on surfaces. Dry powders can build static electricity charges when subjected to the friction of transfer and mixing operations. Provide adequate precautions, such as electrical grounding and bonding, or inert atmospheres. Refer to NFPA 660 (2025) Standard for Combustible Dust and Particulate Solids. NFPA 660 is a combination of Standards NFPA 61 (Agriculture and Food), NFPA 484 (Metals), NFPA 652 (Fundamentals of Combustible Dusts), NFPA 654 (Standard for the Prevention of Fire and Dust Explosions from the Manufacturing, Processing, and Handling of Combustible Particulate Solids), NFPA 65 (Sulfur), and NFPA 664 (Woodworking/Processing). Consult NFPA 660 standard for relevant commodity-specific and general safety information.

Conditions for safe storage, including any incompatibilities

Further information on storage conditions: Protect containers from physical damage. Keep container tightly sealed. Keep container dry.

8. Exposure Controls/Personal Protection

Components with occupational exposure limits

glycerol	OSHA Z1:	PEL 15 mg/m3 Total dust ;
	OSHA Z1:	PEL 5 mg/m3 Respirable fraction ;

Advice on system design:

Ensure adequate ventilation. It is recommended that all dust control equipment such as local exhaust ventilation and material transport systems involved in handling of this product contain explosion relief vents or an explosion suppression system or an oxygen deficient environment. Ensure that dust-handling systems (such as exhaust ducts, dust collectors, vessels, and processing equipment) are designed in a manner to prevent the escape of dust into the work area (i.e., there is no leakage from the equipment). Use only appropriately classified electrical equipment and powered industrial trucks.

Personal protective equipment

Respiratory protection:

Breathing protection if dusts are formed. Wear a NIOSH-certified (or equivalent) respirator as necessary.

Hand protection:

Wear chemical resistant protective gloves.

Eye protection:

Wear safety goggles (chemical goggles) if there is potential for airborne dust exposures.

Body protection:

Body protection must be chosen based on level of activity and exposure.

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 5/11

(30554444/SDS_GEN_US/EN)

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift. Store work clothing separately.

9. Physical and Chemical Properties

Physical state:	solid	
Form:	powder, waxy type	
Odour:	odourless	
Odour threshold:	not determined	
Colour:	yellowish	
pH value:	not applicable	
Melting point:	56 °C (1,013 hPa)	(measured)
Freezing point:	No data available.	
Boiling point:	> 300 °C (1,013 hPa)	
	The substance / product decomposes therefore not determined.	
Flash point:	190.0 - 220.0 °C	(ISO 2592)
Flammability:	The product is not combustible.	
Lower explosion limit:	For solids not relevant for classification and labelling.	
Upper explosion limit:	For solids not relevant for classification and labelling.	
SADT:	Not a substance liable to self-decomposition according to UN transport regulations, class 4.1.	
Vapour pressure:	< 0.0000001 Pa (20 °C)	(calculated)
Density:	0.92 - 0.96 g/cm3 (20 °C)	(calculated)
Relative density:	0.92 - 0.96 (20 °C, 1,013 hPa)	(Directive 92/69/EEC, A.3)
Bulk density:	approx. 480 - 580 kg/m3	
Relative vapour density:	not applicable	
Partitioning coefficient n-octanol/water (log Pow):	5.63 - 15.07	(calculated)
Thermal decomposition:	320 °C (DSC (DIN 51007)) It is not a self-decompositionable substance.	
Viscosity, dynamic:	not applicable	
Viscosity, kinematic:	No data available.	
Solubility in water:	< 1 mg/l The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.	
Solubility (quantitative):	soluble	
Molecular weight:	not applicable	

Particle characteristics

Particle size distribution: typically > 300 µm

(D50, Volumetric Distribution, ISO 13320-1)

Safety Data Sheet

10. Stability and Reactivity

Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals:

Corrosive effects to metal are not anticipated.

Oxidizing properties:

not fire-propagating

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

The product may contain explosive fine dust or such dust may be produced by abrasion during transport or product transfer.

Conditions to avoid

Avoid all sources of ignition: heat, sparks, open flame. Avoid electro-static charge. Avoid dust formation.

Incompatible materials

None known during use and storage if used according to instructions.

Hazardous decomposition products

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition:

320 °C (DSC (DIN 51007))

It is not a self-decomposable substance.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity/Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion.

Virtually nontoxic after a single skin contact.

Virtually nontoxic by inhalation.

Oral

Type of value: LD50

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 7/11

(30554444/SDS_GEN_US/EN)

Value: > 5,000 mg/kg

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Inhalation

Type of value: LC50

Species: rat (male)

Value: 1.86 mg/l (similar to OECD guideline 403)

Exposure time: 6 h

Analogous: Assessment derived from products with similar chemical character.

No mortality was observed.

Dermal

Type of value: LD50

Species: rat (male/female)

Value: 2,000 mg/kg (similar to OECD guideline 402)

Analogous: Assessment derived from products with similar chemical character.

No mortality was observed.

Assessment other acute effects

Assessment of STOT single:

Based on the available information there is no specific target organ toxicity to be expected after a single exposure.

Irritation / corrosion

Assessment of irritating effects: Not irritating to eyes and skin.

Skin

Species: rabbit

Result: non-irritant

Method: OECD Guideline 404

Eye

Species: rabbit

Result: non-irritant

Method: OECD Guideline 405

Sensitization

Assessment of sensitization: Skin sensitizing effects were not observed in animal studies.

Guinea pig maximization test

Species: guinea pig

Result: Non-sensitizing.

Method: OECD Guideline 406

Analogous: Assessment derived from products with similar chemical character.

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Aspiration Hazard

not applicable

Chronic Toxicity/Effects

Repeated dose toxicity

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 8/11

(30554444/SDS_GEN_US/EN)

Assessment of repeated dose toxicity: Repeated oral uptake of the substance did not cause substance-related effects.

Genetic toxicity

Assessment of mutagenicity: No mutagenic effect was found in various tests with microorganisms and mammals.

Carcinogenicity

Assessment of carcinogenicity: No data available.

Reproductive toxicity

Assessment of reproduction toxicity: Repeated oral uptake of the substance did not cause damage to the reproductive organs.

Teratogenicity

Assessment of teratogenicity: In animal studies the substance did not cause malformations. The results were determined in a Screening test (OECD 421/422). The product has not been tested. The statement has been derived from the structure of the product.

12. Ecological Information

Toxicity

Aquatic toxicity

Assessment of aquatic toxicity:

No toxic effects occur within the range of solubility.

Toxicity to fish

LC0 (96 h) > 10,000 mg/l, Brachydanio rerio (OECD 203; ISO 7346; 84/449/EWG, C.1, semistatic)

Aquatic invertebrates

EC50 (48 h) > 100 mg/l, Daphnia magna (Directive 84/449/EEC, C.2, static)

No toxic effects occur within the range of solubility.

Aquatic plants

EC50 (72 h) > 100 mg/l (growth rate), Desmodemus subspicatus (Guideline 92/69/EEC, C.3, static)

No toxic effects occur within the range of solubility.

EC50 (72 h) > 10 µg/l measured (growth rate), Desmodemus subspicatus (Guideline 92/69/EEC, C.3, static)

No toxic effects occur within the range of solubility.

Chronic toxicity to fish

Study not necessary due to exposure considerations.

Chronic toxicity to aquatic invertebrates

No observed effect concentration (21 d) > 0.01 mg/l, Daphnia magna (OECD Guideline 202, part 2, semistatic)

No toxic effects occur within the range of solubility.

Assessment of terrestrial toxicity

No data available.

Study not necessary due to exposure considerations.

Safety Data Sheet

Kolliwax® GMS II

Revision date: 2025/09/23

Version: 5.0

Page: 9/11

(30554444/SDS_GEN_US/EN)

Soil living organisms

Toxicity to soil dwelling organisms:

Study not necessary due to exposure considerations.

Toxicity to terrestrial plants

Study not necessary due to exposure considerations.

Other terrestrial non-mammals

Study not necessary due to exposure considerations.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms

Study scientifically not justified.

Persistence and degradability

Assessment biodegradation and elimination (H2O)

Readily biodegradable (according to OECD criteria).

Elimination information

69 - 95 % BOD of COD (28 d) (OECD 301D; 92/69/EWG, C.4-E) (aerobic, activated sludge, domestic, non-adapted) Readily biodegradable (according to OECD criteria).

Bioaccumulative potential

Assessment bioaccumulation potential

Accumulation in organisms is not to be expected.

Mobility in soil

Assessment transport between environmental compartments

The substance will not evaporate into the atmosphere from the water surface.

Adsorption to solid soil phase is expected.

Additional information

Other ecotoxicological advice:

No data available.

13. Disposal considerations

Waste disposal of substance:

Dispose of in accordance with national, state and local regulations.

Container disposal:

Uncontaminated packaging can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.
