

SAFETY DATA SHEET

SDS No. : 605120000

Revised Aug.20, 2018

1. IDENTIFICATION OF THE SUBSTANCES & OF THE COMPANY

Product Name : **SN-DEFOAMER 319**

Company Name : **SAN NOPCO LIMITED**

Section Name : Quality Assurance Dept.

Address : 31-1, Shinpo-cho, Tokai-city, Aichi Pref. 476-0005 JAPAN

Telephone No. : +81-52-604-0182

Fax No. : +81-52-604-0149

Recommended uses : Anti-foaming agent for Industry

2. HAZARDS IDENTIFICATION (Follow all regulation in your country.)

GHS Classification of the substance or mixture. Data for this product or similar product.

REFERENCES

Results of the GHS classification : Incorporated Administrative Agency “National Institute of Technology and Evolution” : (JAPAN)

Physical Hazards : Not Classified/ Not applicable

Health Hazards

Acute toxicity : Hazard category 4

Skin corrosion/irritation : Classification not possible/No data

Serious eye damage/eye irritation : Hazard category 2B

Respiratory sensitizer : Classification not possible/No data

Skin sensitizer : Classification not possible/No data

Germ cell mutagenicity : Hazard category 2

Carcinogenicity : Classification not possible/No data

Toxic to reproduction : Classification not possible/No data

Specific target organ toxicity following single exposure : Classification not possible/No data

Specific target organ toxicity following repeated exposure : Hazard category 1

Aspiration hazard : Classification not possible/No data

Environmental Hazards

Acute hazards to the aquatic environment : Classification not possible/No data

Long-term hazards to the aquatic environment : Classification not possible/No data

Hazard to the ozone layer : Classification not possible/No data

Symbol :

Signal Word :

Danger

Hazard Statement :

Harmful if inhaled (gas,vapour,mist)
 Causes eye irritation
 Suspected of causing genetic defects
 Causes damage to the skin through prolonged or repeated exposure

Precautionary Statements

Prevention

- : Do not handle until "SAFETY DATA SHEETS" has been read and understood well.
- : Keep away from flames and heat.
- : Avoid inhaling, swallowing, contact with eyes and skin. Wear safety glasses and face protection.
- : Wash hands and face thoroughly after handling. Rinse mouth.

Response

In Case of Fire

- : Use carbon dioxide, dry chemical powder and foam for extinction.

In Case of Major Fire

- : Use dry chemical powder and large amount of water spray to extinguish.

If Swallowed

- : Rinse mouth. Do NOT induce vomiting.

If Inhaled

- : Remove to fresh air and keep at rest in a position comfortable for breathing.

If on Skin

- : Wash with plenty of soap and water.

If in Eyes

- : Rinse cautiously for several minutes.
Remove contact lenses, if present and easy to do. Continue rinsing.

If Exposed or Concerned

- : Get medical advice/attention.

Storage

- : Keep container tightly closed and store in a well-ventilated place.

Disposal

- : Dispose of contents/container in accordance with national and regional regulations.

3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance/Mixture

: Mixture

Chemical Name

: Mixture of Mineral oil, Hydrophobic silica, Higher fatty acid amide, Polyether and etc.

Ingredients and Composition

Ingredient	CAS No.	Hazard Data	Content(Wt%)
Mineral oil	Trade secret	TLV(*) : TWA 5mg/m ³ Mist of mineral oil	ca.93
Hydrophobic silica	Trade secret.	TLV(*) : Not established.	} ca.7
Higher Fatty Acid Amide	Trade secret.	TLV(*) : Not established.	
Polyether, etc.	Trade secret. (Registered in CAS inventory.)	TLV(*) : Not established.	

(*) : ACGIH Threshold Limit

4. FIRST AID MEASURES

Inhalation

- : Remove to fresh air and keep at rest in a position comfortable for breathing.
Get medical advice/attention, if you are experiencing respiratory symptoms.

Skin Contact

- : Take off immediately all contaminated clothing and footwear. Wash with plenty of soap and water. Get medical advice/attention if skin irritation or rash occurs.

Eye Contact

- : Immediately cautiously flush the contaminated eyes with running water for at least 15 minutes. Get medical advice/attention immediately.

Swallowed

- : Rinse mouth immediately with lukewarm water. DO NOT induce vomiting.
If vomiting should occur spontaneously, keep airway clear.
Never give anything by mouth to an unconscious person.
Get medical attention.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media	: Carbon dioxide. Dry chemical powder. Foam. Water spray.
Unsuitable Extinguishing Media	: Water jet.
Specific Extinction Method	: Eliminate all ignition sources, and use suitable extinguishing media. Spray water on the surrounding equipment for cooling.
Specific Protective Action for Fire-Fighters	: Extinguish from the windward to prevent poisonous gas from being inhaled. Appropriate protective equipment(gloves, glasses, and mask) must be worn.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions	: Wear appropriate protective equipment (gloves and glasses, etc.)
Environmental Precautions	: Minimize contamination of drains, surface and ground water.
Method and Materials for containment and cleaning up	: Keep away from ignition sources. Contain spillage by making on embankment of sand, other non-combustible material, etc., and collect into container by shoveling or vacuuming. In case of small spillage, absorb with sand, sawdust, etc. Dispose according to local regulation.

7. HANDLING AND STORAGE

Handling Technical Measures	: Handle in a well-ventilated area. Make emergency shower and eyewash available in the work area. Wear safety glasses, gloves and face protection, etc. Avoid direct contact.
Notes	: Avoid contact with strong oxidizing agents. Keep fire away.
Safety Treatment Notes	: Wash hands and face thoroughly after handling. Rinse mouth.
Condition for Safe storage	: Keep container tightly closed store in a well-ventilated place. Store indoors at a room temperature and in a noncombustible place. Keep away from fire, heat or any other possible source of ignition. Keep container tightly closed when not in use.

8. EXPOSURE CONTROL/PERSONAL PROTECTION

Facility and Equipment Measures	: Establish the adequate local exhauster if vapour, dust or mist occurs. Establish eye washing and body washing facilities near the work areas.
Occupational Exposure Limits	: ACGIH : Not established. (Mist of mineral oil TWA 5mg/m ³)
Personal Protective Equipment : Respiratory Protection	: Not required under normal condition of use. However, use an approved respiratory protection if necessary.

Hand Protection : Impervious gloves. Rubber or plastic gloves.

Eye Protection : Chemical splash goggles or face shield

Skin and Body Protection : Standard work clothes with long sleeves.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance : Grayish white opaque liquid
 Odor : Mineral oil odor
 pH (2 Wt% aqueous dispersion) : No data
 Freezing point(°C) : No data
 Boiling point(°C) : No data
 Flash point(°C) : 174 (Cleveland Open Cup)
 Vapor density : No data
 Specific Gravity(water =1, 25°C) : 0.85
 Solubility in water : insoluble
 Auto-ignition temperature(°C) : No data
 Decomposition temperature(°C) : No data
 Viscosity(mPa · s, 25°C) : 1000

10. STABILITY & REACTIVITY

Chemical Stability : Stable under normal operation conditions.

Possibility of Hazardous reaction : None Know

Condition to avoid : May decompose in the oxidation when exposed for hours to the high temperature.

Incompatible substance : Strong oxidizing agents

Hazardous Decomposition Products : Carbon monoxide, carbon dioxide on burning

11. TOXICOLOGICAL INFORMATION

Acute Toxicity : Hazard category 4 : Harmful if inhaled (gas,vapour,mist) (Mineral oil)
 LD₅₀ = No data

Skin corrosion/irritation : Classification not possible/No data
 Serious eye damage/eye irritation : Hazard category 2B : Causes eye irritation (Mineral oil)
 Respiratory sensitizer : Classification not possible/No data
 Skin sensitizer : Classification not possible/No data
 Germ cell mutagenicity : Hazard category 2 : Suspected of causing genetic defects (Mineral oil)
 Carcinogenicity : Classification not possible/No data
 Toxic to reproduction : Classification not possible/No data
 Specific target organ toxicity following single exposure : Classification not possible/No data
 Specific target organ toxicity following repeated exposure : Hazard category 1 : Causes damage to the skin through prolonged or repeated exposure (Mineral oil)

Aspiration hazard : Classification not possible/No data

12. ECOLOGICAL INFORMATION

Acute hazards
to the aquatic environment : Classification Not possible. No data available.

Eco-Toxicity : LC₅₀ = No data

Long-term hazards
to the aquatic environment : Classification Not possible. No data available.

Persistence/Degradability
BOD = No data
COD = No data

Bioaccumulation potential : No data available.

Mobility in soil : No data available.

13. DISPOSAL CONSIDERATION

Incinerate in accordance with applicable regulations in your country. Do not flush waste water after used for washing container or related equipment onto ground or into drainage.

14. TRANSPORT INFORMATION

UN Classification
UN Class : Not applicable
UN No. : Not applicable
Packing Group : Not applicable

15. REGULATORY INFORMATION

Regulatory information with regards to this substance in your country or in your region should be examined by your own responsibility.

16. OTHER INFORMATION

FOR INDUSTRIAL USE ONLY!

To the best of our knowledge as of today, the information contained herein is accurate. However, the information can be revised according to the law or government regulations' changes. SAN NOPCO does not assume any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of suitability of any material is the sole responsibility of the user. All materials may present unknown health hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards which exist.
