

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15

Version: 1.1

Page: 1/11

(30528149/SDS_GEN_US/EN)

1. Identification

Product identifier used on the label

Covitol® F-1000-2

Recommended use of the chemical and restriction on use

Recommended use*: antioxidant, dietary supplement, raw material for the food industry

Unsuitable for use: Not intended for sale to or use by the general public.

* The "Recommended use" identified for this product is provided solely to comply with a Federal requirement and is not part of the seller's published specification. The terms of this Safety Data Sheet (SDS) do not create or infer any warranty, express or implied, including by incorporation into or reference in the seller's sales agreement.

Details of the supplier of the safety data sheet

Company:
Kensing, LLC

Contact address:
2525 South Kensington Ave.
Kankakee, IL 60901, USA

Emergency telephone number

24 Hour Emergency Response Information

CHEMTREC: 1-800-424-9300

Other means of identification

Synonyms: D-alpha tocopherol concentrate
RRR-alpha tocopherol concentrate

2. Hazards Identification

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Classification of the product

No need for classification according to GHS criteria for this product.

Label elements

The product does not require a hazard warning label in accordance with GHS criteria.

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 2/11
(30528149/SDS_GEN_US/EN)

Hazards not otherwise classified

High risk of slipping due to leakage/spillage of product. When finely distributed, self-ignition is possible.

3. Composition / Information on Ingredients

According to Regulation 2012 OSHA Hazard Communication Standard; 29 CFR Part 1910.1200

Soybean oil

CAS Number: 8001-22-7

Content (W/W): 20.0 - 34.0%

Synonym: No data available.

4. First-Aid Measures

Description of first aid measures

General advice:

Remove contaminated clothing.

If inhaled:

Keep patient calm, remove to fresh air.

If on skin:

After contact with skin, wash immediately with plenty of water and soap. If adverse health effects develop seek medical attention.

If in eyes:

Wash affected eyes for at least 15 minutes under running water with eyelids held open.

If swallowed:

Seek medical attention.

Rinse mouth and then drink 200-300 ml of water.

Most important symptoms and effects, both acute and delayed

Symptoms: No data available.

Indication of any immediate medical attention and special treatment needed

Note to physician

Treatment: Symptomatic treatment (decontamination, vital functions).

5. Fire-Fighting Measures

Extinguishing media

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 3/11
(30528149/SDS_GEN_US/EN)

Suitable extinguishing media:
water spray, alcohol-resistant foam, carbon dioxide, dry powder

Unsuitable extinguishing media for safety reasons:
water jet

Special hazards arising from the substance or mixture

Hazards during fire-fighting:
carbon oxides, harmful vapours
The substances/groups of substances mentioned can be released in case of fire.

Advice for fire-fighters

Protective equipment for fire-fighting:
Wear a self-contained breathing apparatus.

Further information:

Cool endangered containers with water-spray. Dispose of fire debris and contaminated extinguishing water in accordance with official regulations.

6. Accidental release measures

Further accidental release measures:
High risk of slipping due to leakage/spillage of product.

Personal precautions, protective equipment and emergency procedures

Wear suitable personal protective clothing and equipment.

Environmental precautions

Do not discharge into drains/surface waters/groundwater.

Methods and material for containment and cleaning up

For large amounts: Rinse away with water.
Pick up spilled material and containerize for recovery or disposal.

7. Handling and Storage

Precautions for safe handling

Ensure adequate ventilation.

Protection against fire and explosion:

Take precautionary measures against static discharges. Avoid all sources of ignition: heat, sparks, open flame.

Conditions for safe storage, including any incompatibilities

No applicable information available.

Suitable materials for containers: Carbon steel (Iron), High density polyethylene (HDPE), Stove-lacquer 79/14/3 (Müller/CH)

Further information on storage conditions: Containers should be stored tightly sealed in a dry place. Keep in a cool place. Keep away from heat. Avoid direct sunlight. Keep only in the original container.

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 4/11
(30528149/SDS_GEN_US/EN)

8. Exposure Controls/Personal Protection

Components with occupational exposure limits

Soybean oil	OSHA PEL	PEL 5 mg/m3 Respirable fraction ; PEL 15 mg/m3 Total dust ; TWA value 15 mg/m3 Total dust ; TWA value 5 mg/m3 Respirable fraction ;
-------------	----------	---

Advice on system design:

Local exhaust ventilation preferred.

Personal protective equipment

Respiratory protection:

Wear respiratory protection if ventilation is inadequate. Wear a NIOSH-certified (or equivalent) respirator as necessary.

Hand protection:

Wear chemical resistant protective gloves.

Eye protection:

Wear face shield or tightly fitting safety goggles (chemical goggles) if splashing hazard exists.

Body protection:

Body protection must be chosen based on level of activity and exposure.

General safety and hygiene measures:

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended. No eating, drinking, smoking or tobacco use at the place of work. Hands and/or face should be washed before breaks and at the end of the shift. Store work clothing separately.

9. Physical and Chemical Properties

Form:	oil, viscous
Odour:	mild, of vegetable oils
Odour threshold:	not determined
Colour:	amber
	clear
pH value:	not soluble
Freezing point:	The product has not been tested.
Melting point:	The product has not been tested.
Information on: <i>alpha-Tocopherol</i>	
Melting point:	3 °C (1,013 hPa)

Boiling point:	The product has not been tested.
Information on: <i>alpha-Tocopherol</i>	
decomposition point:	350 °C (1,013 hPa)

Flash point:	> 200 °C	
Flammability:	hardly combustible	(derived from flash point)

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 5/11
(30528149/SDS_GEN_US/EN)

Lower explosion limit:	For liquids not relevant for classification and labelling.
Upper explosion limit:	For liquids not relevant for classification and labelling.
Autoignition:	Study does not need to be conducted.
Vapour pressure:	not determined
<i>Information on: alpha-Tocopherol</i>	
Vapour pressure:	< 0.0001 hPa (calculated) (25 °C) negligible

Density:	0.94 - 0.95 g/cm3 (20 °C)
Vapour density:	not determined
Partitioning coefficient n-octanol/water (log Pow):	not applicable for mixtures
Thermal decomposition:	No decomposition if stored and handled as prescribed/indicated.
Viscosity, dynamic:	6,000 mPa.s (20 °C)
Viscosity, kinematic:	No data available.
Particle size:	The substance / product is marketed or used in a non solid or granular form.
Solubility in water:	insoluble
Solubility (qualitative):	slightly soluble solvent(s): Ethanol, miscible solvent(s): organic solvents, Vegetable oils, fats,
Molar mass:	No data available.
Evaporation rate:	not determined

10. Stability and Reactivity

Reactivity

No hazardous reactions if stored and handled as prescribed/indicated.

Corrosion to metals:

No corrosive effect on metal.

Oxidizing properties:

Based on its structural properties the product is not classified as oxidizing.

Chemical stability

The product is stable if stored and handled as prescribed/indicated.

Possibility of hazardous reactions

When finely distributed, self-ignition is possible.

Conditions to avoid

Avoid light. Avoid heat. See SDS section 7 - Handling and storage.

Incompatible materials

oxidizing agents, alkalies, atmospheric oxygen

Hazardous decomposition products

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 6/11
(30528149/SDS_GEN_US/EN)

Decomposition products:

Hazardous decomposition products: No hazardous decomposition products if stored and handled as prescribed/indicated.

Thermal decomposition:

No decomposition if stored and handled as prescribed/indicated.

11. Toxicological information

Primary routes of exposure

Routes of entry for solids and liquids are ingestion and inhalation, but may include eye or skin contact. Routes of entry for gases include inhalation and eye contact. Skin contact may be a route of entry for liquefied gases.

Acute Toxicity/Effects

Acute toxicity

Assessment of acute toxicity: Virtually nontoxic after a single ingestion.

Oral

Information on: alpha-Tocopherol

Type of value: LD50

Species: rat (male/female)

Value: 15,000 mg/kg (similar to OECD guideline 401)

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Type of value: LD50

Species: rat

Value: 2,000 mg/kg (OECD Guideline 401)

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Inhalation

No data available.

Dermal

No data available.

Assessment other acute effects

Assessment of STOT single:

Based on available Data, the classification criteria are not met.

Irritation / corrosion

Assessment of irritating effects: Not irritating to eyes and skin. Prolonged contact with the product can result in skin irritation.

Information on: alpha-Tocopherol

Assessment of irritating effects: Not irritating to eyes and skin. Prolonged contact with the product can result in skin irritation.

Skin

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 7/11
(30528149/SDS_GEN_US/EN)

Species: rabbit
Method: Kensing-Test
No data available.

Eye

Species: rabbit
Method: Kensing-Test
No data available.

Sensitization

Assessment of sensitization: A sensitizing effect on particularly sensitive individuals cannot be excluded.

Information on: alpha-Tocopherol

Assessment of sensitization:

Skin sensitizing effects were not observed in animal studies.

Aspiration Hazard

No aspiration hazard expected.

Chronic Toxicity/Effects

Repeated dose toxicity

Assessment of repeated dose toxicity: Based on available Data, the classification criteria are not met.

Information on: alpha-Tocopherol

Assessment of repeated dose toxicity: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Repeated oral exposure to large quantities may affect certain organs.

Genetic toxicity

Assessment of mutagenicity: Based on available Data, the classification criteria are not met.

Information on: alpha-Tocopherol

Assessment of mutagenicity: The product has not been fully tested. The statements have been derived in parts from products of a similar structure or composition. The substance was not mutagenic in bacteria. The substance was not mutagenic in mammalian cell culture. The substance was not mutagenic in a test with mammals.

Carcinogenicity

Assessment of carcinogenicity: Based on available Data, the classification criteria are not met.

Information on: alpha-Tocopherol

Assessment of carcinogenicity: The whole of the information assessable provides no indication of a carcinogenic effect.

Reproductive toxicity

Assessment of reproduction toxicity: Based on available Data, the classification criteria are not met.

Information on: alpha-Tocopherol

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 8/11
(30528149/SDS_GEN_US/EN)

Assessment of reproduction toxicity: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. The results of animal studies gave no indication of a fertility impairing effect.

Teratogenicity

Assessment of teratogenicity: Based on available Data, the classification criteria are not met.

Information on: alpha-Tocopherol

Assessment of teratogenicity: The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. No indications of a developmental toxic / teratogenic effect were seen in animal studies.

Other Information

The product has not been tested. The statements on toxicology have been derived from the properties of the individual components.

12. Ecological Information

Toxicity

Aquatic toxicity

Assessment of aquatic toxicity:

At the present state of knowledge, no negative ecological effects are expected.

Aquatic toxicity

Information on: Soybean oil

Assessment of aquatic toxicity:

The product has not been tested. It is a naturally occurring substance (e.g. in the metabolism of organisms), whose molecular structure is not supposed to have harmful effects.

Toxicity to fish

Information on: alpha-Tocopherol

LC50 (96 h) > 100 mg/l, Leuciscus idus melanotus (DIN 38412 Part 15)

No toxic effects occur within the range of solubility. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Nominal concentration.

Aquatic invertebrates

Information on: alpha-Tocopherol

EC50 (48 h) > 500 mg/l, daphnia (Directive 79/831/EEC, static)

No toxic effects occur within the range of solubility. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Nominal concentration.

Aquatic plants

Information on: alpha-Tocopherol

EC50 (96 h) > 25.8 mg/l (growth rate), Selenastrum capricornutum (calculated, static)

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 9/11
(30528149/SDS_GEN_US/EN)

No toxic effects occur within the range of solubility. The value meets the highest applied test concentration. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Chronic toxicity to fish

Information on: alpha-Tocopherol

No observed effect concentration (28 d) > 100 mg/l, Oncorhynchus mykiss (OECD Guideline 215, Flow through.)

Analogous: Assessment derived from products with similar chemical character.

Assessment of terrestrial toxicity

No data available.

Microorganisms/Effect on activated sludge

Toxicity to microorganisms

Information on: alpha-Tocopherol

DIN 38412 Part 27 (draft) aerobic

bacterium/EC10 (30 min): > 10,000 mg/l

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition. Tested above maximum solubility. No toxic effects occur within the range of solubility. Nominal concentration.

Persistence and degradability

Assessment biodegradation and elimination (H₂O)

The product has not been tested. The statement has been derived from the properties of the individual components.

Elimination information

Information on: alpha-Tocopherol

8 % BOD of the ThOD (28 d) (OECD 301F; ISO 9408; 92/69/EEC, C.4-D) (aerobic, activated sludge, domestic) Not readily biodegradable (by OECD criteria).

The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

60 - 70 % BOD of the ThOD (60 d) (OECD 301F; ISO 9408; 92/69/EEC, C.4-D) (aerobic, activated sludge, domestic, non-adapted) Moderately/partially biodegradable.

Analogous: Assessment derived from products with similar chemical character.

Bioaccumulative potential

Assessment bioaccumulation potential

Accumulation in organisms is not to be expected.

The product has not been tested. The statement has been derived from the properties of the individual components.

Bioaccumulation potential

No data available.

Assessment bioaccumulation potential

Safety Data Sheet

Covitol® F-1000-2

Revision date: 2024/03/15
Version: 1.1

Page: 10/11
(30528149/SDS_GEN_US/EN)

Information on: alpha-Tocopherol

Accumulation in organisms is not to be expected.

Mobility in soil

Assessment transport between environmental compartments

Information on: alpha-Tocopherol

The substance will not evaporate into the atmosphere from the water surface.

Adsorption to solid soil phase is expected.

The product has not been tested. The statement has been derived from the structure of the product.

Additional information

Other ecotoxicological advice:

The product has not been tested. The statements on ecotoxicology have been derived from the properties of the individual components.

13. Disposal considerations

Waste disposal of substance:

Observe national and local legal requirements.

Container disposal:

Dispose of in accordance with national, state and local regulations.

14. Transport Information

Land transport

USDOT

Not classified as a dangerous good under transport regulations

Sea transport

IMDG

Not classified as a dangerous good under transport regulations

Air transport

IATA/ICAO

Not classified as a dangerous good under transport regulations

15. Regulatory Information

Federal Regulations

Registration status:

Chemical TSCA, US released / listed

Food TSCA, US released / exempt
