

Material safety data sheet for Fipronil 5% SC

1. PRODUCT AND COMPANY IDENTIFICATION

Trade Name: MOLTA
Product name: Fipronil 5% SC (W/V)
Common name: Fipronil
Chemical name: 5-amino-[2,6-dichloro-4-(trifluoromethyl)phenyl]-4-[(1*R,S*)-(trifluoromethyl)sulfinyl]-1*H*-pyrazole-3-carbonitrile (CA)
Molecular weight: 437.2
Molecular formula: C₁₂H₄Cl₂F₆N₄OS
Chemical Class: Fiprole
Approved use: Insect-killer
Exporter: Ningbo Sunjoy Agrochemical Co., Ltd.
Address: 1005 NINGBO ROAD, MANSION 1, NEIRISA TOWN, NINGBO PLAZA, SHANGHAI, CHINA 200081, China
Tel: +86-21-65750731, 65750732
Fax: +86-21-65750398, 51010079
Produced by: Ningbo Sunjoy Agrosience Co., Ltd.

2. COMPOSITION/INFORMATION ON INGREDIENTS

Composition	Content (g/L)	CAS No.
Fipronil	50	120068-37-3
Surfactants	100	
Water	Balance	

3. HAZARDS IDENTIFICATION

Physical or chemical hazard: Non-flammable.

Hazard to human health: Causes eye irritation. Harmful if absorbed through skin, swallowed or inhaled.

Environmental hazard: This pesticide is toxic to birds, fish and aquatic invertebrates. Do not apply

directly to water or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff from treated areas may be hazardous to aquatic organisms in neighboring areas. Care must be taken to avoid runoff. Do not contaminate water when disposing of equipment washwater or rinsate.

4. FIRST AID MEASURES

If swallowed: Call a poison control center or doctor immediately for treatment advice. Have a person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

If skin contact: Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor for treatment advice.

If eyes contact: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor for treatment advice.

If inhaled: Remove victim from immediate source of exposure and assure that the victim is breathing. If breathing is difficult, administer oxygen, if available. If victim is not breathing, administer CPR (cardio-pulmonary resuscitation). Seek medical attention.

Note to physician: There is no specific antidote. All treatment should be based on observed signs and symptoms of distress in the patient.

5. FIRE FIGHTING MEASURES

Extinguishing media: Recommended (small fires): dry chemical, carbon dioxide; Recommended (large fires): foam, water spray.

Hazardous thermal (de)composition products: Under fire conditions, toxic, corrosive fumes may be emitted due to the presence of the active ingredient, fipronil.

Special fire-fighting procedures: Firefighters should wear NIOSH/MSHA approved self-contained breathing apparatus and full protective clothing. Keep unnecessary people away, isolate hazard area and deny entry. Evacuate residents who are downwind of fire. Persons who may have been exposed to contaminated smoke should be immediately examined by a physician and checked for symptoms of poisoning. The symptoms should not be mistaken for heat exhaustion or smoke inhalation.

6. ACCIDENTAL RELEASE MEASURES

General and disposal

Evacuation procedures and safety:

Wear appropriate protective gear for the situation. See Personal Protective information in Section 8.

Cleanup and disposal of spill:

Sweep up spilled granules, transfer to a marked container, and dispose of wastes on site or at an approved waste disposal facility.

Land spill or leaks

Containment of spill:

Follow procedures described below under cleanup and disposal of spill.

Environmental and regulatory reporting:

If spilled on the ground, the affected area should be scraped clean and placed in an appropriate container for disposal. Prevent material from entering public sewer system or any waterways.

7. HANDLING AND STORAGE

Handling: Avoid direct or prolonged contact with skin and eyes.

Storage: Do not contaminate water, food, or feed by storage or disposal. Do not store in or around the home. Store unused product in original container only, out of reach of children and animals. NEVER TRANSFER THIS PRODUCT TO ANOTHER CONTAINER FOR STORAGE.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering controls: Where engineering controls are indicated by use conditions or a potential for excessive exposure exists, the following traditional exposure control techniques may be used to effectively minimize employee exposures: local exhaust, ventilation at point of generation.

Personal protection:

Eye/Face protection: Eye and face protection requirements will vary dependent upon work environment conditions and material handling practices. Appropriate approved equipment should be selected for the particular use intended for this material.

It is generally regarded as good practice to wear minimum of safety glasses with side shields when working in industrial environments.

Body protection: Skin contact should be minimized through use of gloves and suitable long-sleeved clothing (i.e. shirts and pants) shoes plus socks. Consideration must be given both to durability as well as permeation resistance.

Respiratory protection: When respirators are required, select NIOSH/MSHA approved equipment based on actual or potential airborne concentrations and in accordance with the appropriate regulatory standards and/or industrial recommendations. Under conditions immediately dangerous to life or health, or emergency conditions with unknown concentrations, use a full-face positive pressure air-supplied respirator with an emergency escape air supply unit or use a self-contained breathing apparatus unit.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance	: Viscous liquid
Color	: White
Odor	: Odorless
pH value	: 4.5-8.0
Density	: Approx. 1.05g/mL
Viscosity	: 440 centipoise
Solubility	: Dispersible

10. STABILITY AND REACTIVITY

Stability: Stable under normal conditions.

Conditions to avoid: Direct sunlight and extreme heat.

Hazardous polymerization: Will not occur.

Decomposition products: hydrogen chloride, hydrogen fluoride, oxides of nitrogen, oxides of sulfur, oxides of carbon.

11. TOXICOLOGICAL INFORMATION

Oral: Acute oral LD₅₀ for rats 495 mg/kg.

Skin and eyes: Acute percutaneous LD₅₀ for rats >2000 mg/kg. Non-irritating to skin and eyes (rabbits).
Not a skin sensitizer.

Inhalation: LC₅₀ (4 h) for rats > 5 mg/L.

12.ECOLOGICAL INFORMATION

For Fipronil Technical:

For bird: Acute oral LD₅₀ for bobwhite quail 11.3, mallard ducks >2000, pheasants 31, red-legged partridges 34, house sparrows 1120, pigeons >2000 mg/kg. Dietary LC₅₀ (5 d) for bobwhite quail 49, mallard ducks >5000 mg/kg diet.

For fish: Acute LC₅₀ (96 h) for bluegill sunfish 85, rainbow trout 248, European carp 430 µg/L.

For daphnia: LC₅₀ (48 h) 0.19 mg/L; for *D. carinata* (48 h) 3.8 mg/L.

For Algae: EC₅₀ (96 h) for *Scenedesmus subspicatus* 0.068 mg/L; (120 h) for *Selenastrum capricornutum* >0.16, *Anabaena flos-aquae* >0.17 mg/L.

For bees: Highly toxic to honeybees, both by direct contact and by ingestion. However, no risk to bees when used as a soil or seed treatment.

For worms: Non-toxic.

13.DISPOSAL CONSIDERATION

General disposal:

Pesticides wastes are acutely hazardous. Improper disposal of excess pesticide is a violation of law. Contamination with this product will render water, food or feed unfit for human or animal consumption. Wastes resulting from the use of this product may be disposed of onsite or at an approved waste disposal facility.

Container disposal:

Do not reuse empty container. Disposal of empty container in a sanitary landfill or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

14.TRANSPORT INFORMATION

UN No.:	3082
Maritime Transport IMDG/IMO:	
Class:	691
Packing group:	III
Shipping name:	Environmentally Hazardous Substance, Liquid, N.O.S. (Fipronil 50 g/L)

Handle with care to avoid breakage of containers (packages) from damage, Keep in well ventilated place, and away from food and feed stuffs, etc.

15.REGULATORY INFORMATION

Symbol: Xi, Xn

Indication of danger: Irritant, Harmful

Risk phrase(s):

R 21/22 Harmful in contact with skin and if swallowed.

R 36//38 Irritating to eyes and skin.

R 57 Toxic to bees.

Safety phrases:

S 2 Keep out of the reach of children.

S 13 Keep away from food, drink and animal feeding stuffs.

S 23 Do not breathe vapour/spray.

S 24/25 Avoid contact with skin and eyes.

S 36/37/39 Wear suitable protective clothing, gloves and eye/face protection.

S 61 Avoid release to the environment. Refer to special instructions/safety data sheets.

16.OTHER INFORMATION

Packing: In 1, 5, 20, 25, 30, 200 Liters Bottle, Jerrycan, HDPE or Iron Drum, or as per request.

Revision Date Prepared: 11/12/2017

DISCLAIMER

The information in the MSDS relates to this specific material. If the product is used as a component in any other product, this MSDS may not be valid. The information contained was obtained from sources which we believe are reliable. The information is provided without any warranty, expressed or implied, regarding its correctness. This Material Safety Data Sheet was prepared according to Directive 93/112/EEC.
