

MATERIAL SAFETY DATA SHEET

SECTION 1 – PRODUCT IDENTIFICATION AND COMPANY

Common name : Glyphosate
Recommended use : Herbicide

SECTION 2 - COMPOSITION, INFORMATION ON INGREDIENTS

Components contributing to hazard:

Chemical Entity	Porportion (%w/v)
Isopropylamine salt of glyphosate	47.42%
Surfactant	10-20%
Water	Up to 100%

SECTION 3 - HAZARDS IDENTIFICATION

Hazard classification Hazardous (National Occupational Health and Safety Commission – NOHSC).
Risk phrases R36
Safety phrases See Sections 4, 5, 6, 7, 8, 10, 12, 13.

SECTION 4 - FIRST AID MEASURES

Remove source of contamination, or move victim to fresh air. Keep affected person warm and at rest. Treat symptomatically and supportively. Qualified personnel should perform administration of oxygen. Get medical attention if effects persist.

Move the victim to fresh air and remove all contaminated clothing, shoes and leather goods. Gently wipe off excess chemical. Wash affected skin areas gently and thoroughly with water and non-abrasive.

SECTION 5 - FIRE FIGHTING MEASURES

Extinguishing media and procedure Dry chemical or carbon dioxide for small fires. Water spray or foam for large fires. Use water spray to keep fire-exposed containers cool. Approach fire from upwind to avoid hazardous.

SECTION 6 - ACCIDENTAL RELEASE MEASURES

Do not breathe in spray or fumes. For personal protection see Section 8.
Do not allow entering drains or watercourses. Spillage or uncontrolled discharges into water courses.

SECTION 7 - HANDLING AND STORAGE

Avoid contact with eyes, prolonged contact with skin, and inhalation of spray and fumes. Handle product with caution. Use with adequate ventilation. Wash hands before eating, drinking, chewing gum, smoking or using the toilet.

Store in its original, labelled and closed container in dry, cool, shaded, well-ventilated area, away from heat.

SECTION 8 - EXPOSURE CONTROLS/PERSONAL PROTECTION

Exposure standards No value assigned by the National Occupational Health and Safety Commission (NOHSC).
Biological limit values None allocated.

SECTION 9 - PHYSICAL AND CHEMICAL PROPERTIES

Appearance: A clear golden yellow to amber liquid.

Oxidising properties: None.

SECTION 10 - STABILITY AND REACTIVITY

Toxic oxides of carbon, nitrogen and phosphorus are released when the product decomposes on heating.

SECTION 11 - TOXICOLOGICAL INFORMATION

Acute oral LD₅₀ : > 5 000 mg/kg in rats.

Acute dermal LD₅₀ : > 5 000 mg/kg in rats.

SECTION 12 - ECOLOGICAL INFORMATION

This product is non-selective and may severely injure or kill desirable plants should the product contact the foliage, green stems or fruit of such plants. Glyphosate-isopropylammonium is practically non-toxic to fish and aquatic invertebrates. Glyphosate has low is practically non-toxic to birds and bees. DO NOT rivers or waterways with this product or used containers.

SECTION 13 - DISPOSAL CONSIDERATIONS

Waste resulting from the use of this product that cannot be reused or reprocessed should be disposed of in a landfill local procedures. Hydrolysis under alkaline conditions is a suitable method to dispose of small quantities of the product. After hydrolysis, dilute and dispose of in pits or landfill. until container is cleaned, reconditioned or destroyed. Combustible containers should be disposed of in pesticide incinerators.

SECTION 14 - TRANSPORT INFORMATION

UN number	Not applicable
Proper shipping name	Not applicable
Class and Subsidiary Risk	Not applicable
Packing Group	Not applicable

SECTION 15 - REGULATORY INFORMATION

Registered according to the Agricultural and Veterinary Chemicals Code Act, 1994.

Australian Pesticides and Veterinary Medicines Authority registration number: 62980

See Section 2.
